## CONTACTO CÓSMICO

FLOWER OF LIFE

**Peace and Life terrestrial humanity**  
For these times, where in spite of existing hundred of religions and supposedly advanced civilizations, wars exist, deaths, illnesses, consumerism, in short the human psyche is directed primarily to a materialism, falling in the deep abyss day by day.

**The human being has not meditated on the nature of his existence: Who am I?, Of where I Come? Toward where I go? Is the only life to be born, to study, to work and to have children? Will I be the result of my thoughts? These restlessness remain without clarifying them.**

In this time of darkness and ignorance, the beings that have reached the universal wisdom went by what the state of eartha quintillion years ago and they have achieved spiritual states that we humanly call: Ángel, Archangels, Thrones, Imperiums, Cherubs, Judges, Vajratawas and Kabires.

These beings come with the wisdom of God in Mystery, the Christic wisdom , source of Universal Light.

They manifest us that the level of the human conscience is very low that is necessary to elevate it to participate of the New World that comes for this cycle of the Earth. These changes already began, the critical point will be reached for final of the 2012. This prophecy this in archaeological discoveries of many old cultures, of those which is the Mayan, Egypcian culture.

In that period we should be in harmony with the changes of the era of Aquarius, because but we will be affected by the Photonic energy that comes from the center universe for re equilibrate to the different worlds and to synchronize them with the origin of all that exists.

The human being up to now has been induced to believe in what you call the official science, but it is that is only a science is based in the materialism, ignoring the Spiritual part that is the one that lasts in essence.

The orders or religious institutions have all in common an origin: God, Unfortunately the sacred teachings have been distorted by the human being's EGO.

It is so evident this that one of the first received messages was:

You that you look for the light (wisdom)  
Understand first the darkness (Ego)

If you feel wise, you will never be it. The principle of the wisdom comes when one knows that it is ignorant, as said by the Philosophize Socrates.

We should enter to meditate on ourselves, (not of the neighbor) to discover our defects and starting from there, to advance toward the liberation of Our Conscience, while we allow ourselves to be dominated by the Ego, we will never be free.

So ignorant we are, that we believe that we are the only thinking beings in this vast universe, where the Earth is as a grain of sand in the immense sea. And that when we speak of these beings we call them extraterrestrial without knowing that we share the same origin: God. And what differentiates us of them is our State of conscience and vibration.

The human being fears to the homemade noises that he ignores, now imagine contacting extraterrestrial beings, for that reason meanwhile we don't elevate our state of conscience and vibration, we won't be contacted. While the person awake conscience many will be contacted in dreams (astral world)

This doesn't have anything to do with the religion that you profess, it can be Christian, Buddhist, tao, Gnostic, witness of Jehová etc. For them they are human institutions, the essence that is the spiritual thing and it is the same thing for all.

The changes of conscience are not given overnight, as well as to a person is not removed the bad habit of taking alcohol, to smoke, etc.
