### **NOTE TO THE ENGLISH TRADUCING**

**Fellow earthlings I ask for your forgiveness in the translation, these books were written in Spanish and for urgency of the times to come, made a rushing effort, if anybody can help send me the e-book corrected for better understanding God will pay you're your interest. Peace and Life**

### **PREFACE**

Congratulations my brother that you read this book. The fundamental reason for which was written, is to fulfill a law that Says: "Share with your fellow men all that that for mercy and grace of God arrives to you". We clarify, because it is not other our objective, because there is another axiom that says: "Karma is paid by the negative things that you make and also for the positive things that being able to make them didn't do them".

In these times the Earth is in crisis of all type: economic, social, demographic, etc. But the most important is the spiritual or moral crisis; this is demonstrated in half hour of news programs in any country of the world. Many people also speak either of the execution of the prophecies: Christian, Islamic, Buddhist etc. In all religious institution they speak of the end of d times. The psychologists and psychiatrists, a sociologists attribute this at the end of one millennium and the beginning of the other one; but who has the reason then? If you analyze the humanity's history will realize that it has made countless errors even causing death to those that wanted to tell the truth on the diverse topics, such as if the earth was round or flat, if the sun rotated around the earth or vice versa.

It is hardly logical the contradiction that exists between the materialistic science and the spiritual wisdom, since the materialistic science supports its theories in those facts that it perceives through the man's five senses, and the results of apparatuses that have built with the time. On the other hand those that profess the true science, use the internal senses besides the five external that possess. Because yes, internal highly spiritual senses exist, the ordinary man has not awakened them, for that reason ignores that possesses them.

For further clarity we say that all scientific method has fundamental steps: Observation, Study of the parts, Hypothesis or theory, Verification or Practical and lastly Law.

## Kosmic Kontakt

If in any moment I say: "the sun comes out every day", I have to demonstrate it through the scientific method enunciated previously. So much the materialistic science and the occult or spiritual Science use the scientific method, the difference is that the perception of the facts on the part of the materialistic science is limited since it only uses the five senses and the apparatuses that invent. While the occult universal science uses besides the senses, to perceive the external world, it also uses the seven internal senses, obviously to perceive the internal worlds. Something certain the materialistic scientists have said, that the human being doesn't use at least 20% of the capacity of the brain ( the being's strands).

Ask the question to a materialistic scientist that if he can demonstrate that God exists, he logical will doubt or say that he cannot do it, some inclusive believe in God in a blind way, but they cannot demonstrate it. The esoteric scientist **knows** (he doesn't believe) that God exists because it perceives it clearly in its interior and also knows the universe, "man know thyself and you will know to the Universe and the Gods" (*HOMO GNOSCETE IPSUM*) the law of the likenesses is also completed that says: "What is inside is the same thing that is out, that of up it is the same thing that of below".

Its difficult for the esoteric people demonstrate to the materialistic scientist the existence of the internal worlds; it is as if a person that possesses a normal vision, arrives to a country where no one have this sense (the vision), and has never been developed, and tries to explain the colors and its tonalities. They will say he's crazy and revolutionary, even put him in jail because of fear of things for them unknown. If he has luck and some people follow his teachings, that person will have to help them develop this sense, so that they awake this sense and then they will understand, because **they lived the experience. (Practical and non theory)**

If in spite of history, you believe blindly in the materialistic science, study the supposed advances that have been given, almost all technology is to service of the human pleasure, giving comforts, transport, communication, distractions. In field of the health it's been advanced enough, but to what cost? The investigations at microbiological level are a double edge, because they have brought the vaccines and the form of eradicating infectious illnesses, but they have also given place to the biological weapons. The advances in the atomic and nuclear physics have been wonderful, but blurred when seen by the development of the atomic and nuclear bombs that even threaten to destroy this terrestrial sphere.

Our leaders in the history have been the materialistic scientists and their associates those pseudo-spiritual (religions with earthly interests, political, economic) they have taken us to the chaos that nowadays lives, an infernal world where the bread of every day is the death, illnesses, etc. That now because they have cloned a sheep

and maybe a human being (non man), they proclaim that “the such God doesn't exist that was always a myth”. This attitude had contaminated the world, for that reason the incredulity is plentiful. And so that you don't wake up they maintain you distracted with the electronic apparatuses, television, radio, cinema, music, the sport. You would say how it is possible that something like this is negative? We don't say that, only we assert that the previous activities distract the human being of their main mission in the earth that is **to be perfected and to reach the illumination (Christification, Buddification, Krisnification)**. Have the full security that if you don't carry out activities in pro of spiritual development, any other thing develops the part contrary to her, in this principle that is based that **Biblically** refers to that you cannot serve at Two Lords at the same time, that gray angels don't exist, there are white or black. In another words you with God or his contrary, Your in Light or darkness, you cannot have love and hate in one heart. (sermon of the mount, Matthews gospel).

As the man discovers more dangerous he becomes. What if it ends up discovering forces more powerful that the nuclear one? We would be lost. Thanks to God that the cosmic wisdom is reserved alone to those that its **Internal God or Christ have developed**, to assure that this wisdom is used **to preserve the life** and not for destruction.

If you have the sublime intention of Christification or Illumination to reach the interior Being, welcome. Because you will be given the wisdom of God, the occult wisdom. If you have egocentric intentions and tries to deceive other, only it will deceived thysself since their interior Christ doesn't sponsor these actions.

I would like to clarify that this not a book more about an experience with UFOs or extraterrestrial, because, since we speak of extraterrestrial, it is good to explain that 3 types exist:

**Central:** They are beings that have reached highest spiritual grades (Angeles, archangels, seraphs, cherubs), they flow directly with the Creative Father. They can appear in soul or with physical body. Some are the **Representation of God or Theokratics Regents** where they inhabit. Their contact with beings not Illuminated (those that have not embodied **our Great presence or Real Being**) as us, it is very difficult, since should have stability in the energy order, spiritual and physical, that which indicates to be in eves of the illumination, to be virtuous and mainly not to waste the sexual energies (orgasm or ejaculation, since make us impure; Levi cap. 15) but being chaste even being married.(Exodus, cap. 13 verses 21 and 22).

**Fluyentes:** they are beings that aspire to conquer the spiritual realization, the difference with us, it is the grade of spiritual, technological knowledge and a smaller

## Kosmic Kontakt

grade of self-centeredness. Their contact is complex, since they don't intervene in our world, for not **violating the free will** and the predestination of this world (Genesis cap. 6 verse 4).

**Outlying:** Beings with high level technological, with high grade of self-centeredness, are beings **far from God**. Any human being can contact him, they run the risk of being captured or kidnapped for their experiments. Its presence in the earth has been glimpsed many times, its objective is to use our waters and other terrestrial elements, for its balance. To tell the truth most of the ships photographed in different parts of the world correspond to these. Since they leave print in the field (Destruction) they don't keep in mind the respect to life. (Genesis cap. 19).

You will wonder how to differentiate them? It is easy, if you receive a message of any extraterrestrial, study it, if it goes in **pro of the life** and of the **preservation of the sexual** energy it is genuinely spiritual and celestial.

If in any sentence they suggest the destruction of the life, they are outlying, for example: if they tell they eat living beings, fish, chickens or meats of any class .

Of the above-mentioned, we can deduce that us, the terrestrial humanity **are outlying** for the cosmic civilizations since quantity of acts of violence that we live, besides we kill to eat or we sponsor this action, buying this foods.

We know that in Colombia and the world, they have been carried out several congresses of contacted people and UFOs, even they invited us in an occasion. Unintentionally neither to insult or critic the mentioned congress members, we declined, because in this congress they charged high sums of money and articles of all species were sold. And **We don't charge** for the messages that we have received free . This humble book this sponsored by each one of the members that we have lived the experience with the **COSMIC BEINGS** and we would never receive money to give the teachings. Neither we want to get the attention of the press, neither to have fame. In one of the communications with the celestial beings told us that they themselves will contact the whole mass humanity in the final moments and that our mission consists on to get ready and **AWAKE**.

For these reasons we request with humility, if you don't believe or it doesn't please you the wisdom that this book gives, give it away. Remember: God doesn't forget its children, not even those that hate HIM. This book contains the message of God sent to its children, to notice that the moments of the terrestrial purification comes closer , it is hour of getting ready, before studying this with your mind, do it with the heart, he shall indicated your path.

#### INTRODUCTION

Distinguished ladies, honorable gentlemen, young ones that reads these orientations based on the cosmic love.

Our presence in this science is to unveil, arriving to a synthesis on the origin and mysteries of the existence, on the man's septenary (7) constitution.

It is of vital importance the understanding of this topic to this way acquire physical and psychic harmony. When somebody is not situated in a theme, the mental states are perturbed creating confusion, doubts and in last case madness.

The life outside of the Earth sphere has been speculated by great quantity of leaders so much spiritual as materials. These investigations are not new, during centuries has stayed the idea and the question: Is there life outside of the earth? Very few they have been able to respond this important question, and who have made it, is with base a personal, but not universal perspective. The extraterrestrial topic as other topics, has two inclinations: to believe or to not believe. Both can take you to a conflict. Those who believe in him and they take it as an objective end and those who believe to solve their problem with only saying I don't believe. The two positions are not the product of the internal wisdom that each human being generates; they are the product of the "orientations" that for centuries our guides have imparted us. The question is: our leaders have had the reason or the truth?

The humanity's history, of the solar system of the galaxy and of the cosmos, one has been sustained in hypothesis, in false suppositions moved by the human ignorance. These hypotheses have disoriented and confused the common of the humanity.

We should remember that in the Medieval age it was sustained that the earth was squared, and that only it arrived until the end : finisterre (of Latin, end of the earth), this it was the teaching type that was professed in the superior schools. But the celestial messengers have embodied in different times, in moments of social and spiritual interference, in that time it corresponded to Christ-baal-colón (**Christ**: it

forces universal that is latent in all alive organism, in all divine creation, **Baal:** disastrous energy, **Columbus:** line) This representative of domain of waters was esoterics, for such a reason it was able to convince the queen Isabel (**Isa:** to hoist, to get up, **Bel:** fire tower) and thus completing orders cosmic, it cooperates like a woman in the mission and it gives him three boats.

The navigator baptizes them with the sacred names: PINTA: father; Santa María: mother, Niña: son. And with the representation of the sacred family you voyages toward that ignored for all, but that he sensed it and visualized. Christ-bal-colón was considered crazy, they made fun of him because he affirmed that beyond the end finisterre were more lands. Christ-bal-colón (Christopher Columbus) was a deep expert of the astronomy and the astrology, for that reason chose to the regency center-heart, of Leo, because it was need to be located as a lion to dismantle the farce of the scientists. The navigator, the being's representative in the ship was seen in danger by the manning (self-centeredness) ones that faced it to the 67 days ( $6+7=13$ : muerte and resurrection) and they wanted to throw to the sea to destroy it with the waters (this action is the one that makes the ego, it uses the waters of life to destroy the being). That day there was a total eclipse of sun, but only the navigator knew it, he told them that the sky was with him and with all, in that moment the area, was darkened and panic was felt on board the ships. They took this like a sign of the sky, but the navigator affirmed them that in three days they would be in mainland (three days of those that speak the Christ in Jesús, referring to the construction of the new temple. To the 70 days (7 are the number of the organization) they arrived to these lands, to our continent. So sure he was that he would arrive to other lands that he took a quantity of trinkets, medals, etc. To exchange with the Indians, something that no navigator accustomed to do. This surprised the world and he left in ridiculous the pseudoscientist of that time, the hermetic axiom was completed: **“Who laughs of what ignores, it is on the way being an idiot”**.

But our leaders and guides continued guiding because they cannot stay quiet and pass as ignorant. Ptolemy materialistic investigator with his homologous outlined the Geocentric theory (Geo: earth, central: center) the fruit of its "wise" investigations, made them believe that the earth was the center of the solar system and of the universe. And the humanity had to believe in these statements because if somebody said the opposite, was considered an outrage, as heretic, enemy of God, of the churches, to a convict for heresy: they tormented him, they took out the fingernails, they tossed acid in the eyes, they put the head in a giant bell to which hit unceasingly until traumatizing it, they made an opening in the stomach and they tossed melted lead, etc. To finish him was burned alive this done by the so called "sacred inquisition", all this on behalf of God.

## Kosmic Kontakt

A eminent master called **Galilean Galilei**, guided the astronomical real position of the stars including the earth rotating around the sun, this theory was called heliocentric (helium: sun) this statement of Galilean infuriated the scientists and they denounced before the inquisition. These captured him and they prosecuted him in public, to burn him alive in the public square, the quantity of assistants expected the moment to Galilean be transformed into a human torch. Everything was ready, a cardinal told him: "You can survive of dying burnt if you swear that the Earth doesn't move around the Sun!!" Galilei should finish its mission in this world and to not die he said: "I swear, and *Eppur sy added Muove.*" They left him in freedom, but a friend takes later visits him and he asks him that which was the meaning of the words that pronounced in the square. Galilean responds: They "are of Latin origin and they mean: that he moves, he moves."

Ours leaders have made absurd statements: In Basle, Switzerland, the scientists met to see if they found the origin of the illnesses and epidemics, and in that congress Louis Pasteur got up and he told them: "Siblings, there is the necessity to sterilize the syringes because there are illnesses that are transferable as the hepatitis. The jeer and laughter was the prize for Louis Pasteur.

Equal happened when the railroad was invented, the scientists affirmed that nobody would invent an apparatus that overcomes the 30 kilometers per hour.

All these statements have been destroyed by the best judge that has life : The Time. Nowadays we know that the earth is not a planet, because it is not flat. We know that it is the earth the one that rotates around the sun. That the illnesses are transferable, and that any automobile overcomes the 30km./hour. Really who laughs of what ignores this on the way being an idiot. We recommend to be situated before the big enigmas of history because it is better to shut up and go by ignorant that to open your mouth and not leave a doubt.

For these times there talking about the extraterrestrial life, but the humanity's guides say that they don't exist. However the historical evidences demonstrate that the life outside of the earth is a fact. The experience that I lived in 1989 was transformative and it is what I will speak to you, but I want to make a short journey of the historical cosmic evidences that speak for itself.

We have the case of the mysterious blackout of New York, an unique case to which the scientists have not been able to explain, happened the day 9 of Nov. 1965, it was 5 in the afternoon, everything was suddenly in calm two lights appeared in the North American skies, there are many eye witnesses, the radar detects them and two airplanes come out to intercept them, one of the lights rose getting lost in the space and the other one descended to the electric power stations of Siracusa, when they were the 5 and 28 minutes of the afternoon presents the blackout of New York that

## **Kosmic Kontakt**

was not only in New York but in 17 more states including Quebec and Ontario in Canada, it was also in Massachusetts and Pennsylvania. All these states were dark and any apparatus that depended on the electricity didn't work, people caught in the elevators, the radars were paralyzed.etc.

The North American government said; "Gentlemen calm down, the best technicians in NASA are already looking for the flaw (They believed that the flaw was local) in some moments we will have light. But with the passing of the minutes the panic arises and again they said: we are defenseless, what do we do? Any air projectile can cross above us, and we could not detect its presence, neither we can send one of our guided projectiles to intercept them because the control bellboys depend on electricity.

In the stations of the meter thousands of helpless people to be transported, the automobiles were abandoned since by lack of gasoline the stations they didn't work. They lapsed the hours and there was no answer. Suddenly and exactly to the 5 and 28 minutes of the dawn it returned the energy spontaneously, twelve exact, arithmetic hours. Not there was necessity to move the pointers of the electric clocks.

In the electric power stations they had electronic brains, these they indicate the place where shows up the flaw and it can disconnect the switches partially to avoid problems. The airplanes had problems to land because the tracks were too dark. A thousand problems cause this blackout that was really a humiliation for the materialistic arrogance of the Earth.

All knew that those lights coming from the stellar space were cosmic ships. The investment of the polarities caused the blackout.

The Egyptian pyramids speak for itself, no existing human mind could be able to carry out such transcendental work (on this topic we amplify in the Blue Book, of the same author).

The tracks of Nazca in Peru.

The giant monoliths of the island of Easter that they observe the space like waiting somebody.

San Agustín's monoliths in Colombia, their face is Asian, and they resemble the opposing ones in smaller Asia, both date of the century seventh before Christ and there was not, in that time apparent communication between America and other continents.

To Mexico we see wrapped in an entire summary of monuments that escape from the human imagination. Equally inexplicable it is Machu Pichu in Peru, the tiers that form this majestic temple are energy true condensers.

## Kosmic Kontakt

The triangle of the Bermudas is an entire enigma.

All these historical evidences are real testimony of the presence of our bigger brothers in the Earth, but parallel with it, we have it the narrations that appear in **the Bible**, sacred Book center of our Faith. Stories on Angeles' presence and cosmic ships you will find them from Genesis until the Revelation.

In Genesis Cap.6, verses 2,4: Genesis 6:4 There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare [children] to them, the same[became] mighty men which [were] of old, men of renown ". It is logical that to engender a son it is required of a sperm and this comes from a physical body which should inhabit some other world. In Genesis Cap. 19 find that two angels arrived to Sodoma and they demonstrated their supernatural powers, they said to Lot: "Survive, leave without turning behind, you go to the mountains so that you are not razed by the death, we will destroy this place" These angels, they ate breads without yeast and Lot washed there feet, what also indicates that they had a physical body. Sodoma and Gomorra were razed by a great explosion that in that time being of earthly origin was not able to.

In Exodus the narration of a thick cloud that guided to the town, appears it guided them by day and at night it became a fire column to illuminate them the road, this cloud remained until months in the same form (Exodus Cap,13, versos,21,22). The laws settled down by our Creative Father indicate that a cloud cannot remain for much time in a unique form. This luminous cloud appears in several occasions in the Bible. The prophet Ezequiel, explains in the first chapter, first: "the skies opened up and I saw as a wind and a storm, a cloud surrounded by the splendor of the ray and of the fire and the figures of alive beings that human beings looked like appeared this way, each one had four faces and four wings and for the sides the figure of an eagle, a bull, and a lion. And when they moved they emitted the sound of a powerful thunder (of many waters) in this era it describes travelers of the space.

In the book of Acts chapter 9,1 finds that the savior of the world a cloud absorbs him and it takes him away. The prophecy of the Revelation chapter. 1, verse 7: "Behold, he cometh with clouds; and every eye shall see him ". This cloud is not another thing that a cosmic ship, as well as it is the star that guides the magi kings, all star rotates in an arithmetic orbit, and to leave would cause collision among stars and cosmic catastrophes. Many say the drawer sentence: "for God there is not anything impossible", but it is necessary to study that our Celestial Father is an exemplary being, and if He create the laws, HE won't transgress them.

## **Kosmic Kontakt**

In second of Kings 2, 1: finds something that doesn't have confusion; a fire car came from the heights and Elijah was taken.

In the Bible like in the sacred other books we find winged Angeles that ate and they carried out activities that included human acts, like Jacob it fought with an angel in Peniel. Did Jonas remain inside a fish for several days That it was really a fish? For many Noahs Ark is an enigma, two hippopotami, two rhinoceroses, two elephants, two. .... Who assisted then to reinforce the ark to support the weight of so many animals?

Thousands ways of life exist in the Cosmos, many worlds, the Christ decreed: My“ Kingdom is not of this world”.

Independently that they find historical evidences or not, narrations in the sacred books, etc. This being that talks to you, the Creative Father allowed me to live a singular experience, a transformative and transcendental experience, for this way guide transparently on the topic of the cosmic wisdom and the greater siblings, nowadays we can verify to this way to affirm on the modus vivendi of the Extraterrestrial.

## **CHAPTER I**

In 1.986 became interested to investigate the enigmas of the existence, to such grade that I made myself active member of the Superior School of Occult Teachings (I.G.C.U.) starting from the month of April I was devoted to the practice and incarnation of the doctrine body, these practices was intensified the following year, everything with aim to psychosomatic restructuring. In the year 88 supplemented with the studies of endoteric theology . In the year 89 dictated chats about experimental psychology, 17 of October of that year went to dinner, later did my practices and I went to bed as every day. In the dawn of the 18, something unexpected happened , the event that would mark the real direction of my existence: in that dawn I listened strange sounds like electronic or metallic, sounds that resounded in my brain, but they were not rowdy , I incorporated trying to find the origin but everything was in order. That day everything lapsed ordinary, the voices or sounds made me uneasy, they were not in Spanish, everything was an enigma.

Three days passed in those I waited wanting to clarify, but didn't happen anything, the day 22 its repeated the scene, I was aware of the phenomenon, this was what I listen: “Pasanna Ikkaly, of Luk Splendor and Agarika Zing, to Zigk Gnanak” when listening these words I made the sign of the cross, and I told them: *if you want to*

## Kosmic Kontakt

*speak to me, please speak to me in Spanish, I don't understand*. Subsequently I listened:

*You have been “chosen for the teletransportación mission, your origin is our origin, your projection it is ours, don't fear, that but more ahead you will understand. The collective petitions of some organizations have arrived from space, the lawyestyc concatenation was commended to the constellation Pegassus like pattern of fluency, three stars of this constellational order ; Pegassus, Boolaghnú and Acirfa are linked in the mission to overcome the chaos that lives in this star. It is needed that you understand your missioner position, in this field you have been chosen to crystallize the universal diverse projections, you will have from this instant the fluency of the beings that, together in a Regency cause , we are ready to cooperate to the development and transcendence of the people. The mission is the central axis of this contact, it is required to achieve the balance and harmony of a people, you will carry out your works and you will wake up as all the men, the communication will allow you to guide the people toward the final exodus. Neffing Ikally.”*

There was a silence, I intervened with a question, I remained with the pencil in hand, to write the answer but there was no answer, slowly I was perceiving the physical noises, cars, etc. The communication had finished, I had in my hands a cosmic message, I read it time again and again. I had communicated with the theocratic regency of Woolaghnú.

After the first communication, the fact became frequent, each two or three days I communicated with them, in each fluency I received a message, these I transcribed it in my desk, they guided me to veil them (not to say them).

Certain day dialoguing with a Brother I showed him a small cosmic message, he told me that they could be spirits, but not physical extraterrestrials. It caused me some intrigue. A couple of days passed and in a communication I told them: In the Christ's name, are you physical beings or spirits? Subsequently they responded:

*“Both parts will be integrated in a single being, in our manifestations we can make it in spirit, in energy or physically, but we can also make it luminously, they are six the expression forms that goes beyond the physical thing. In our star we possess a tangible body.*

*Your restlessness gives us margin to indicate you that contrary forces will be contacting you to stop , pause these projections, they will offer you earthly goods and eroticism, you will also find astral elementary forms that will present you the option of the fame and the power, they already have here great quantity of followers in the earth. Some have been deceived making them believe that they come from Zuhón (absolute, I center of the universe) but the teaching clarifies the origin”.*

## Kosmic Kontakt

I said Brother, to deepen in these teachings, is it possible a dialogue in person?

*“For that you have to pre-erect yourself, to develop your Theophanic and organic body, we will give you some practical disciplines that you will do intensely. Neffing Ikkaly.”*

November was a month of intense psychophysical practices , I should absolute chastity. In the month of December I continued communicating, I already had the authorization of sharing the messages, some were of scientific character others were deeply occult, they also had spiritual, these last I shared them with evangelical people, Adventists and witnesses of Jehová with which sustained dialogues.

In a fluency I requested them that they made me a study (exam) on my preparation, after making it they indicated me that everything was completed and that to get ready for the encounter:

*“Each person that inhabits this sphere possesses a sacred germ in a star of the cosmos, that is her origin, the earth doesn't sprout souls, its position before the lawyestic voluptuousness doesn't locate it as genetic order, this mission is that can be possible, but not in short time, for centuries may pass, but it requires to begin the development. You will be taken to your spiritual germ, Acirfa is your origin, it is in this galaxy, exactly in the diameter 68 of Zuhón. Kalathum 11, 7 aeom 18 .Aladeeesssiiiiaaa”*

This message was received in Christmas, it confused me due the idea of being transferred to another star, they arose me many queries: How many time will pass? Will I be returned? will I suffer damages? etc. However I felt prepared, I was ready, there's a reason they had contacted me. I commented to a group of friends, all they were optimistic, we wanted to enlarge our investigations about the life outside of the Earth. The day 27 we made a special practice, in which the petitions were made.

In the dawn of the 28 the room was suddenly illuminated, this illumination transformed into an oval which came closer to my face, I could see the front of my apartment, the highway traveled as if was a mean of transport, it arrived until the outskirts of Magangué, Bolivar., city where all this was happening. Finally stopped in a field, then the vision disappeared. That day I got up I made a showerbath of plants, in a small handbag I placed a pant, shirt and personal hygienic things. A taxi took me to the outskirts of the city, of there I crossed the neighborhood of San Pablo heading for the place. As curious thing that I was in the street and about five year-old girl and without knowing me “ told me: Mister, are you going to the moon”?, the mother was sweeping the front of her house, she smiled and she said: “that little girl is crazy”. I followed my road, and myself remembered the axiom that says: “the children and the lunatics tell the truth, for that reason the children “they educate” them and to the lunatics they contain them”.

## Kosmic Kontakt

At 7 15 am I was in the contact place that had seen in vision. I prepared to carry out psychophysical exercises, the minutes passed and it didn't happen nothing strange. They will be 8 a.m, from the place the houses of the neighborhood Camilo Torres could be seen, I went there and I bought paper, candle and match, quickly I made a letter and I sent it to the ether like I had been indicated.

I kneeled, made the petitions of rigor, before getting up I looked at the clock, it marked the 8 and 27 minutes, I had determined to return home. When lifting the sight, the impact was singular, to scarce 15 meters there was a radiant disk of color orange that rotated vertiginously, it had about six diameter meters. It changed color quickly, became yellow, then in beige and at last in silver brilliant, it continued rotating but it didn't emit sound, I was petrified, only I could move a little backwards. There was a well where the cows dranked the water, it was surrounded of water; I wanted to arrive to them and finished the experience. It seemed that my psychosomatic preparation had disappeared. The apparatus that had about three meters of high stopped, it was not stopped in the earth or vegetation, like levitating. From it came outside a being dressed with pant rosy colored that covered the feet, the shirt to the height of the waist with a wide belt, followed a lady descends, dressed equally alone that was a little but wide to the height of the shoulders. I observe each part of their body, their hair is wavy and a single brow that it crosses h from temple to temple, another array of brows that ascends of the brow forming a triangle in its front. The male with his hand points out the ship inviting me to approach it, but a mystery invaded me, I didn't walk toward the apparatus, like paralyzed. The lady returned and she enters in the navco (cosmic ship), many seconds pass, the male observes the whole contour, he looks at me and he says: "Pasanna Ikally, is the same voice of the communications, I understand that it is Luk Splendor and Agarika Zing. He places his left hand above my right shoulder, to about thirty centimeters, it invaded me a tranquility and relaxation. Luk Splendor passed from being a cosmonaut to a normal human and the ship became a bus of terrestrial service.

With my handbag I approached the navco, inside it is very practical, it has in the superior part three screens that seem oval televisions, to this they call **Graff**. Not I realized in that moment detached the apparatus, I didn't feel that void that we experience when detaching an airplane. I planned to find many bellboys, electronic boards, levers etc., something similar to the booth of an airplane, but it was not this way; the three screens are already inside the apparatus mentioned, there is also as a small organ (a platelet with eleven ovals in form of bellboys), it is the whole technical part. I saw a sphere like wrapped in fume that went away vertiginously, Luk Splendor made me feel that it was the star earth. Subsequently I was not able to see anything more, only it was seen through the small windows a vapor, or a humidity that steamed up the transparent material of the window.

## Kosmic Kontakt

Not they had lapsed fifteen minutes when we were already in an area or cosmic port. We descended, Luk Splendor went where some beings to dialogue, Agarika Zing and I waited a few steps from the ship. A while passed he returned and we entered again to the zeles (ship), that base or city was Wulagnú or Boolagnú, a star of the constellation Pegasus in this galaxy. Five minutes later we descended to a zelesport. When stepping land, Luk Splendor expressed: "*Revere your divinely germ , there is here the summun astrus patrus that sent you to the earth*". I placed the handbag to a side and kneeled, giving thanks to the universe for the lived experience. The sun was rising, for a moment I believed that it was the same Sun because it was this way in t the earth when we left.

They were some ten people in the area, I could see different types of ships: in ball form, tubular, oval., trams, transparent, etc. To us a youth came closer, he made us a reverence gesture and caught my handbag, we go up ourselves in something with form of a phone booth, the streets moved, it seemed as if a layer moved from above. There are not corners, the plans are organized in ovals to avoid accidents. We arrive to a house, this as most, they seem two united eggs. This mean of urban transport is directed by a person to accelerate it or to stop it, it moves above the street.

In the housing the Theokratics Regents inhabited: **Markoth and Karloth**. They indicated me that I could take a bath, my guide was there son who moments ago brought my handbag.

To take a bath I enter in a cylinder, I undressed and suddenly everything filled with vapor, it was not cold, like thermal , when the vapor disappeared I had left water condensed in the body, I was dried, I changed myself in clothes and I heard say that there were a meeting or dialogue in the home of **Théren**, I went to this house, and a great surprise awaited me when I saw a terrestrial person, the one which, the same as me, it had been transferred there, I came closer and we dialogue; it was Antonio, a Venezuelan that had transferred to complete a mission in the earth. That meeting or dialogue seemed that it was prepared for the two terrestrial visitors, although there they had people with a low level of wisdom, it is necessary to understand that not all the extraterrestrials possess high grade of wisdom. (in retrospect I was able to remember that dialogue):

“ The space ships are represented in the man and the man in these. They possess the first pattern's same characteristics, every day is vital for the human organization, from the moment of the conception, the cosmic regents are projected to form with their rays each system in action, the days 1, 7, 12, 18, 24, 36, 42, 53, 67, 72 and 90 are definitive for the harmony in the life. The genetic order is located being related

## Kosmic Kontakt

closely with the cellular integral vortex. Starting from the moment of the conception, the days in mention are those mostly attended to constitute a true human creature. If when being developed it forgets these eleven auspices, won't be able to manifest as a true son of God."

Followed to this intervention it was needed the participation of a terrestrial one of both, I hoped Antonio spoke, but he didn't make it, he looked at me and I understood that I should expose. The exhibition room was an oval, the assistants were in an array forming circumference, in the center there was kind of a booth that reflected the image toward all sides in the same form, to be that the exhibitor gives the front to all. There I went and I talked them about the energy, their therapeutic applications and the position of the scientists in front of this. They asked me on the transgression and profanation of the Creator's laws. I commented them that in the Earth it had proliferated vastly the EGO (anger, laziness, lust, hate, jealousies, etc.) that the origin of the life had been distorted. Comment them on the Satanic organization call "sacred" inquisition, and that they called it saint because they affirmed that all the tortures and crimes were favored or sponsored for heaven's sake, I detailed them about those tortures, I talked them about the inquisitorial well, the pony, the dungeons, etc. And in last, on the blaze.

I could perceive imaginatively that it caused them astonishment the intervention, their faces continued common and currents because they don't laugh, neither they cry, neither they get scared, but they have a feel spiritual transferable. Markoth Karl clarified and corroborated everything, he promised that he will unite to our projections to rescue the genetic code and to eradicate the egocentric programming that had taken possession of the humanity. It synthesized with the sentence: **"In the earth, is where they crucified the great light universus Crestus" (Christ).**

When it finished the meeting, the son of Markoth, informed me that **Claven**, the confectionist of dresses required to speak with me, we go to its sphere or house, and we dialogue thoroughly, she spoke to me of her occupations, how she does it. In each work or occupation I could notice a great difference, mainly if one keeps in mind that each step that they give goes in pro of the preservation of the life, including its feeding. Claven says that any star that is in favor of the **Creator** don't destroys the life. When commenting her about the life in the earth, she was attentive, then she said: that it is the experience that I require, to visit to your star it is as traveling is 17 hundred years to the past, I will request a permission to visit the earth. My vibrational level has descended at 71-29, to remain in the earth would stabilize me in the 89-06 at 99-07 level".

She showed me the diverse dresses that they use, they are miniature, but to the contact with the organic termicity (heat) become as elastic.

## Kosmic Kontakt

We suspended the dialogue because an emissary arrived with the message that I should show up in the temple, we go to the living room of Universal **supramísticos exercises**, at the distance I could observe a horse next to the wall of the temple, this horse had wings and a horn in the most superior part in the head. Only when we were close, I could differ that it was carved in the wall, it seemed alive, it was of a white-grizzly intense color, the radiant sun emitted its rays on the base, but not toward heat, it was a fresh climate, we enter for a corridor, as we entered it was darkening, we arrive at the sacred enclosure, it was at night, the whole atmosphere was organized in such a form that seemed at night. I Looked up and I saw the stars, until that moment they had some twenty people and they continued arriving the invited to the ceremony, it got me powerfully the attention the arrival of some beings that had wings stuck to their arms, other small wings in the feet and other many but small in the ears.

The synthesis of my transfer to that star was present, I was taken for a psychosomatic restructuring, later to which the partial integration would be given in future times, with the Spiritual **Regency of Acirfa**. I listened music, it was not terrestrial music, because in our music there is combination of sounds (adulteration), the music was only a sound, a single harmonic note, I could see of where it came, it was an apparatus of the size of a remote control, located as to about three meters high. In the wall of the enclosure there was an engraving to the one which all those that went entering, the hands were placed in the larynx and they made it a reverence. To the left side of the temple there was a transparent platform, it seemed the cover of a sarcophagus in glass. They indicated me to lie in it, in this horizontal position I observes the superior part of the temple attentively, it was really at night, because it was seen through a glass that covered the roof of the temple. My body began to warm I touched my forehead to see if it had perspiration, but there was non.

The ceremony began, I could see to the Theophanic body of the sacred order of Acirfa, the stellar soul **Zigk Gnanak**. I felt sleepy and began to rise slowly and float in the space, I looked to the platform where I was lied down and there I saw my physical body. I saw as a channel that absorbed me and I appeared in the earth in the chronological moment of the hecatomb, it was something impacting, to such a grade that I felt the attraction of my physical body, I was not afraid, I opened the lids and they gave me the sign to get up, the restructuring had finished, I felt different, with another transparent vision of the life.

Each person when leaving again made a reverence to the engraving of the wall, I came closer and when a saw some letters or figures I told myself internally, this is a prayer, Markoth told me: ***"This is the essence of all the existent in the universe, it is the living formation of the sound, of the Verb, it is the energy that moves the cosmos. All the stars work and they evolve thanks to the word, to the***

*letter, to the mamtrams, the reverence is the identification with the Creator. This is the ALVANIK language of this area of the cosmos, it is integrated to all the languages and expression forms."*

The truth is that I spoke to them in Spanish and they understood me, the surprising thing it is that they spoke to me in Alvánik and I understood, now I understand that they manage the **language of gold** that is integrated to all, the silver language, of copper, or of iron.

When all came out he went to a sphere like of a meter and it took out a sheet or scroll and a marker with which I transcribed the Alvanik language. When leaving again to the street I saw the sun, according to my idea it was two in the afternoon, the curious thing is that in my clock marked 6 a.m . In several occasions I could analyze that my clock gave the impression that went quicker, since in several occasions I had seen this same hour.

We went to the field that is beside the sea, from the sea they extracted a pasta to build housings, in those days constructions of two plants were building, with the objective of housing some terrestrial inhabitants in the moment of the final cataclysm, these housings are identical to those of the earth, what varies is the construction technique for they use levitatators to lift the prefabricated badges.

When we move to the cultivation field, a group ended up gathering fruits with a similar machine to a robot, they placed to the foot of the tree and of this it left as an invested umbrella, the robot emitted a vibration that only synchronized with the

mature fruits and these fell in the umbrella, of there to a recipient cleanser. All trees have their branches with their leaves up, similar to the garden pine. The earth of Acirfa is it integrated, it seems floor, it doesn't lift powder (it doesn't fade) it is as if is humid. The trees maintain their healthy and green leaves as if is always in spring.

Suddenly, I saw as if somebody moved running hiding in a tree, I stayed observing that tree and I saw like a chimpanzee form that moved to another tree, the son of Markoth Karl explained to me that it was an anigood (animal). There are fruits of different colors, of their flavor I don't know, because I didn't prove some. I listened a sound or buzzing like that of the bees, they were emitting the sign to receive the food. We go to the place, some houses in chain, as schools, had some fifty people to receive food, even Antonio, the Venezuelan, was there. There was a table that contoured the housing all we were seated in front of this table, of an opening at the beginning of the line moves above the table, kind of a cloth with the food, two recipients, one with a plate and another with a glass, in this last a similar drink to a food of the interior of called Colombia "clear-of corn", that of the plate seemed like the cortex of yucca, these foods didn't have a specific flavor; the Acirfa beings didn't make the smallest noise when eating, their lips scarcely moved. It seemed a school, all dressed same. In that moment I analyzed again that they don't possess teeth (Reflection: the children that are but near God, neither they have teeth, when the anger, the hate, are manifested, they grow the teeth, and when it arrives to old, when the ego cannot show the teeth falls ).

The silence in the food represents the prayer in action of thanks to the Creator. Of there we went to the home of **Karloth** - feminine companion of Markoth - this eminent lady gave me an orientation to be transmitted to women that are ready to use the universal medicine. Later to this dialogue she drove me to a camera or room, so that I rested, to my understanding only some hours had passed since I ascended to the Zeles in the earth, since it had not arrived the night. In a thick cloth as a mat that was not supported in the floor went to bed carefully. Scenes of the earth were coming to the imagination, I compared the modus vivendi of the two Stars. Today is December 28 I told myself: How much time will I remain in this star?. Although it had not felt fatigue I get up vitalized. I went to Karloth and there were Luk Splendor and Agarika Zing who indicated me that we should return to the earth.

I said goodbye to the Theocratic Regency, they responded the farewell placing their hand in the forehead lifting it toward the sky. We walk to the Zelesport, in the road I saw a plant with an immense flower of about forty centimeters of yellow color, I requested them they gave me some seeds to bring them to the earth, while they caught the seeds of this called plant Tilus. I went to catch other seeds of a rosy flower and I tossed them in my handbag, together with those of Tilus. When being in front of Zeles, Luk Splendor looked to the infinite and I point out with its hand the

direction where the earth was, something that caused my admiration because here in the earth, Acirfa is also up. We approach the ship and we abandon this being's divine spiritual germ.

## CHAPTER II

We descended to the same place of the encounter, it was dark, I thought that it had darkened in the trip, my clock marked 7:40 p.m., Markoth had told me that it would indicate me the hour and day of narrating the experience. The lights of Magangué were seen, I left to the highway and I left home in a taxi. When arriving I am told that we are at December 30. They had lapsed three days but in Acirfa scarcely one. They belong to another solar system.

The group was pending on my comment, but I didn't tell them anything until the day January 3 1990, I met the group and I narrated them all the lived experience. When ending they asked on the seeds, I took out of the handbag the seeds of Tilus and I distributed them, they were about 20 blue seeds. Those of the plant of rosy flower didn't appear, I read an essential short message that Markoth sent to the group in that time:

*“Pasanna Ikkaly, you children of the fifth sun, the times are present, the Father that had forgotten their son per millennia has returned with rigor and force to begin a new regency cycle, it will arrive in the fair moment, watch over each instant. Aladessia will be present in every hour and in each age. Is.”*

We all stayed with optimism, the group was fraternized based on the experience and the promise of the Greater Siblings. The following day I left there to the place of encounter and buried the scroll where the Alvanik language is written, each three or four months I revise it.

That transport was transformative, my vision toward the world changed totally, this was not margin like to look down on my fellow men, on the contrary, I was stirred up a superior interest of cooperating in the humanity's spiritual development, I made it this way in the year 90, I organized the group, maintained the communication with Luk Splendor, its orientations took me to scales of the soul, celestial Soul **Zigk Gnanak**, our Interior Teacher, our Great Presence, was able partially to be integrated to me as human soul. This for a greater understanding of the physical and spiritual life, starting from January 3 the 91, this soul integration was located as the humanity's spiritual patrimony. Three celestial forces, **Luk Splendor**, **Agarika Zing**,

## Kosmic Kontakt

**Zigk Gnanak**, in the high command instructing the humanity, the celestial ideas were centered in the spiritual part, but **Not in U.F.O.s**

At the end of that year a group friends or spiritual brothers went to my clinic and they exposed me that they also wanted to communicate with them, that not only me was to be middleman. I found it good idea because 99% of the groups, there is always a leader that communicates and a group that for faith and dogma continues him/her. It began the month of December, in a communication for psychovoice (that it is not telepathy because in this the voice is listened inside, in the brain, and the psychovoice, out), I exposed Luk Splendor a letter that I had organized:

“Pasanna Ikally, Wulagnik dignitary, with all the respect made to the celestial order, I communicate that there is a high level of acceptance of the cosmic teachings, but there are three members that want to communicate with you, in the personal thing I backup the idea because this will help to base the teachings and we would be four contacted as pattern for expansion and execution of missions. I don't want that in this group it happens like in the other ones where there is a possible one contacted and more nobody can check that. The siblings want to listen your voice and to continue serving in the great order. Neffing Ikkaly”

The answer was: *In“ each scale they will be able to understand that the universus is projected by celestial laws that organize us, our act is free, as it is of all creature or son of the Creator, our action is balanced in the theological government. Your application will be studied in our system, you will be summoned . Neffing Ikally”*

This answer of Luk Splendor gave me truly hopes, I wanted these siblings to be contacted also.

Some thirty people motivated in the investigation of that of the spiritual evolution existed and in passing in the UFO phenomenon. The day December 5 were indicated that I should move to 65 kilometers to the south of Magangué, they told me that the four applicants could go, I gathered them and I commented them, but several impases of works and economic factors prevented them to travel, I had to go alone to the encounter (not by chance). The day 11 of that month at 9:45pm o'clock, it was the encounter point, beside the river. Something like that as a lightning illuminates the area, for a moment I believed that it could rain, but I realized that it didn't have loaded clouds, another lightning centralized close to me showed, I could understand that they were not common lightnings, these were verdusignus (green) and it was stabilized in form AND that it vibrated, it could have near two meters high, the two ramifications, they were becoming wings and the vertical one in to the body, being finally the figure of Luk Splendor.

## Kosmic Kontakt

I exposed him the idea of the contact of the three siblings or spiritual brothers, I insisted because I insist, didn't want to be as the common of the groups, in which the leader is the only one that receives the messages and the parishioners to believe blindly. There was a total void, a silence, I felt an inconvenience, I thought that I was demanding too much, then I listen the sentence: *"Neffing Ikkaly"*.

The contact finished. I returned home, in reflection I made myself quantities of questions. I waited to be contacted the following day, but it was not this way. The day 13 in the first hours of the night I was summoned . It repeated the lightning, already in their location, Luk Splendor told me:

*"The message that I bring you is not of a physical value, value it with the soul, terrestrial centuries ago ,completing universal and lawyistic orders, we locate in the cameras that today gives to you, listen: to the moment of your application, we locate in the graff the area where the creator of the **ark of communication** was, we met with a dimensional being, **Phem Moy Yet**, immediately moved beside this being, it indicated us that to give the plans and the auspices, was needed the presence of a **Vajratawa being** (grade in the high spiritual initiation ), we detect that Vajratawa was in the luminous path of the constellation Anturia, we show up before the supreme being **YANG KAREY**. Who for goodness of this cause, she narrated us that the earth was the star of its full identification. "Thousands of years ago Anturia was prosecuted by Ventzians, my father like a guide, he faced the war and transferred us outside of Anturia where there was no danger and he returned to the luminous path to defend the people. We emigrated looking for a star with characteristic related with our form of life, we found the earth where beings of high understanding received us. In occasions we sent emissaries to Anturia to have information regarding the war. The moment arrived this way of returning, we didn't find my father neither the supreme command, the war it put an end to him. The federations postulated me to direct the destinations of Anturia. With my spiritual development I achieved the grades that today you know. I am in debt with the earth. They will have the ark of the science, and I will travel to flow with them".*

To finish Luk Splendor told me:

***"your application of contacting human beings has been secured, you have the delegation to contact seventy seven people. For which, you will build an Ark of communication having measured fluibles for our vedzeles (vehicle directed Celestials) it is kind of a housing or primitive house. The measures vary and sensible with the number of assistants. Be sure that they are measured of etheric standards: 2,27; 3,33; 4,42; 5,67; 6,90; or 7,70 meters.***

***Be sure that it is hermetic, built with natural elements. A channel of water will surround it. In the superior part you will install the projection of the Ark, a Gibraltar or dome, this is manufactured with the mineral or vegetable***

## Kosmic Kontakt

**kingdom, imitate pyramidal, their measures are 33 or 70 centimeters if they require this way . You will install it a thousand grams of terrestrial imam distributed in twelve pieces.Six in centrifugal position and six in centripetal form. Will recover it with a brilliant paste, and in very soft expression. This Gibraltar when is activated (that is to say in communication is covered in energy, very dangerous force, with the result that it should be located in the superior part (external) of the camera.**

**To a thousand two hundred centimeters of Ark, filthiness or wastes should not exist, it is vital that it settles in a fluent and harmonious place.**

**But the most important thing is that it should be erected in a hyperspace coordinate. The assistants should be balanced siblings, the nongenetics and nervous they should not enter to Ark without before pre erecting (psychophysical preparing).**

**The applicants to flow with our orientations should undergo a s bioestructural(psychosomatic) study for five hours, which should be among third o'clock day and fourth night (from 8am at 10pm, in Magangué, Bolívar) hour before entering each member will take a quantity of fine oil (olive) . For each kilo of organic weight, he/she will take a cubic centimeter of oil. Through this study, our theocratic guides will decide if it can be contacted in their energy level.**

**Later on he/she will be given a pad of objective expressions and the unique forms of as erecting(awakening) thyself in the confederational level and in the chronological facets.**

**Those who attacked against their principle of life (genital organs) cannot enter, they have to energize that vital area. The applicant should have solidity in a projective level, spiritualist and missionary, if the facets require it this way ”**

This is a secret of the cosmos, the precious jewel that they gave me, it was more than what I had requested, what we wanted only that through telepathically they contacted some members of the institution to base my statements, and more in these critical times of heresy and apostasy.

I returned to Magangué with the extraordinary news, dialogue with some brothers and I exposed them what had received, in those days the preparations began to build the Ark. Some were doubtful, because it seemed incredible to achieve the yearned psychotronic communication . For those that didn't know the project, we were building a meditation shack. When everything was ready we entered the Ark, but nothing strange happened, we enter several times in the week.

## Kosmic Kontakt

Certain night, we entered, we relax ourselves to the maximum and we made the petitions of rigor. Suddenly a play of bells, and a feminine voice was listened that in the distance spoke indicating us that Ark didn't assume the vibratory and configurational level for the communications, she gave us the tecnicos for its cosmic ericción.(leveling up)

The bells were the same of the telepathic contact, only that these are more strong and the fluency shortest.

Starting from the spring of the year 1.992, the contacts began with the sister of the Luminous Path **YANG KAREY**. This being guided us for seven continuous regencies (cycles of 28 days), for the month of September the communications were suspended, we had the idea that the contacts through the Ark, had been with a common extraterrestrial being, but one day my soul state : Zigk Gnanak said the following message, unveiling who was the cosmonaut **YANG KAREY** :

*"Siblings, the moment has arrived of revaluing this universal principle of life that palpitates in each atom, in each sun, in each word, because it has been, it is and it will be. As letter she is the Father, as Word she is the Son, and I like a sentence or fraise is the Holy Spirit.*

*Certainly the golden night of **YANG KAREY** glows in the constellations and in all the ages. Obviously **YANG KAREY** glows in the ineffable cosmos , because she is not a human being, it is a multiple and perfect unit, it is miter, it is the spiritual sun, the mystic snake of the orphic mysteries .*

***YANG KAREY** is not a another extraterrestrial as they suppose in this time many sincere mistaken .*

*It is **YANG KAREY** the cosmic same principle that foments the existence of the universe. In fact you received a very grandiose being and she opened the first blaze of the understanding, because when she speaks, it uses the word, for that reason it glows gloriously in the infinite incommensurable space. It is glory, it is light, it is knowledge.*

*It is our guide through the distance and of the time, to take you and to indicate on the way to the evacuation.*

*Unquestionably, this being deserves to be meditated in all you.*

*This reflection won't make it from a merely literal point of view, we should make it from the point of the diverse theogonies.*

***YANG KAREY** like intelligent principle can tie to the microcosms, with the macrocosms, and all human being should make the same thing since the terrestrial*

## **Kosmic Kontakt**

*sphere it is going by a dark age, for that reason the light comes with her and nobody recognizes it, neither even the students of the spiritual paths.*

*This way occurred with **YANG KAREY**, far in the infinite space, traveled for eleven hours, five of those through the hyperspace and the rest in the transformation of the hyperspace time in concrete time as that of the earth.*

*To end up guiding to six endoteric groups, because the universe wanted it this way. They listened to their sublime voices, but, nobody followed her, and every day that passes is more difficult.*

*Today she goes away, her tears dewed the six coordinates, disappearing the vertical authentic line of the hope and being a delicate horizontal line. Waiting that one day you were able to listen their voices, understand the urgency of being elevated(awakened).*

*She closed a cycle, the snake bit the tail and the sufferings continue being accentuated. Now it becomes necessary to return to the old wisdom, to make to glow the mystery of the Zigks and to expand it to many towns of the earth, if we make it this way, very soon your organism will be under conditions of making arrive a message to our dear sister of the stars **YANG KAREY**.*

*Theocratic Regency of Acirfa”*

I traveled to Cartagena to write a book about that we were living. In December of that year the titled volume came out to the public light: “**The Bible and UFOs**”.

It arrived the year of 1993, the ark it was disabled, I returned to Magangué to see as we gave her life.

In the month of February a group of the city of Cartagena that had read the book arrives and in common agreement with us began to diffuse the message massively.

The Elder Brothers activated us the ark and the contacts continued. From the spring it began to guide us by delegation, the cosmonaut **Kamika Amasshy**, regent of the sphere **Farunha** in the constellation of Anturia.

This ark had a dimension of 2,27mts. The group was more than of a hundred people and they were New in majority in the teachings.

We got an area to build an ark and a temple for the spiritual exercises, we located everything to the south of the city and beside the marsh.

In those days they summoned me for a contact of seventh type, which had requested at didactic level, since would be allowed to photograph the ships, etc.

## Kosmic Kontakt

They summoned me to the other marsh side, more exactly to a population called Tacasaluma. At 3 in the afternoon of the day March 28 we were in the encounter point, which was near the population's by kilometers.

Stopped beside the marsh I waited the appearance of the ship to photograph her.

In a while some beings dressed with yellow tunics came out from the bushes, their skin is blueish, they give me the greeting: Pasanna Ikally and they are identified in a single voice like the cosmonauts **Fling Zul** and **Job Manare**. Fling Zul has grizzly hairs that fall to the shoulders, while Job Manare it possesses more hair and of a clear yellow color.

Beside the marsh, together they look toward the space and in a while a radiant ship appears about of seven meters diameter, slowly it was staying still, its color varies from the silver plating to the dark one, in its inferior part it has two triangle species and six walls. Of crown it possesses a piece of about two meters and this has some bars seemed to metallic glasses, and in the center a series of disks surrounds her.

The ship descends, the brothers they invite me to go aboard, I do it without thinking it twice. My handbag had left it out, Fling Zul told me: "we will make a trip", in those instants I felt the impulse of requesting a trip to Venus, star that I have always wanted to visit, but it was not about a trip outside of the earth or to one of our places, it was a trip to the past.

In the psychic ship, we manipulate the chronological graff in a screen of about seventy centimeters of latitude, the ship in which we are appears. A cloud appears before the zeles, Fling Zul points a kind of a gray opening for where we had to enter to travel to the past, told me that it would be enough with imagining the time to which we would travel, two images t became present: to know the pyramids in construction and the life of **Jesús the Christ**, it interested me more this last and the said it. Indeed the ship was introduced by the opening, and to the moment everything was darkened. When returning the light we were in a population near to a lake called Korazín.

We had traveled to the year 31 of this era, to Job Manare I indicated that at didactic level I was interested to travel to the time of crucifixion of the Christ. We entered again, they advanced the graff, and repeated the phenomenon, we appeared in the same population. People with her vestments were devoted to the works of the field. The sun was declining, suddenly everything was darkened and it began to fall rains and lightnings and a storm became present, people ran holding on to her vestments, the beings indicated me that the crucifixion was giving.

## Kosmic Kontakt

We approach the zeles and we syntonized the graff again, they noticed me that had to do it with the same precision because but we could appear in the year 80 of Akuario (2.070 aprox. )

Soon after the zeles was posed in the departure place, in the moment I didn't believe that we had returned to our days, because although in that population pass a lot of days that it didn't rain, it was dark, sprinkling and the breeze the same as in Korazín. I abandoned this encounter amid the rain, they had made an appointment at hour fifth lot of the following day, and it was this way, I Attended willing to photograph and to film the zeles.

I was able to take around ten pictures in different positions, some didn't come out because a zeles moves very quick and I'm not an expert and had little experience in the handling of the camera. In that encounter they gave me a decalogue, a chart where is the synthesis of the Anturiagnus evacuation plan .

The one that got my attention powerfully was the fact of rushing the zeles against the wall of the well or base, it was introduced without leaving rake, later on I listened their sound in the air, but I didn't see them again.

This is the synthesis of the encounter with these cosmonauts, messengers of the stars: **Yemen, Hura and Harbin**, in the constellation **Anturia**.

Although these pictures have presented polemics of all type, especially in people with very artificial spiritually. In those that all they see it with the egocentric mind.

Parallely with Anturia and the contact evacuation, the beings of the Final Trial, allied Ventzians were also present.

Who are the Ventzians? Shortly I will tell you that they are celestial beings that belong to the Universal Law, they are species of pieces or delegates to prosecute the humanity directly, and in consequence to all stars.

This organization forms it beings of diverse stars and galaxies, in each star there is stable Ventzianic that like it is logical, they remain camouflaged with the terrestrial ones, that is very easy since diverse skin colors exist here, black, white, yellow, red, etc. In general they are near the area of the scientists, finding out their Machiavellian inventions that attempt against the universal balance (bombs nuclear, atomic etc.). This custody is given in the moment in that the earth was expelled of the cosmic order - sacred, to which belongs Jupiter, Venus, etc. They in the past prosecuted Sodoma and Gomorra (Genesis cap.18 and 19). But they don't act with prepotency, in general they meet with the missionary confederations, to notice them the lawyestics determinations. Their watchword is the preservation of the created it's in original state.

## Kosmic Kontakt

These beings studied the psychology of the terrestrial sphere and they didn't find it capable for the evacuation, they exposed Yang Karey their plans to stop the process. This being governs Anturiagnus it demonstrated all his love for us, because Ventzianos had prosecuted Anturia and in this trial his physical father perished.

Yang Karey allowed that I met with the Ventzianic delegation, I accepted and they summoned me to about 25 kilometers to the north of Magangué. It was for the day April 15, only some fifteen days of the previous contact had passed. It was near the hour tenth when it was in the exact place. I took myself the videotape recorder and a camera of fixed picture.

I arrived to a property, a lady assisted me allowing me to rest, the humble lady Mrs. offers me some rice and a delicious serum, both were eating, three young children of her, ate inside the house she cooks, when suddenly she listens the unmistakable sound of a zeles, it was the Ventzianics, for those of the house, it was the wind.

I moved away from the table, the breeze whipped the treest, the powder of the earth rose, and they made thunders, I moved away from the table, I caught the videorecorder and indeed, showed up the zeles, the antenna of the television fell ostentatiously against the roof of the house, which was made of zinc, this made the lady to run toward the interior of her house, the dogs howled with fear.

The Ventzianic zeles seemed a crown in the giant expression. I made the filming at one time of three minutes, to the moment this apparatus rose getting lost in the space and everything returned to the calm.

I returned to the cabin where I had a hammock, at third lunar hour listened the sublime voice of Kamika Amasshy that indicated me the place where I should meet with those of the final trial, this voice tranquilized me, it was not easy to dialogue with this class of beings that belong to the celestial law (chess piece). I Made the decision and I went to the place, they was waiting for me beside a well, beside the ship of crowns, enter by invitation (in sign) that made me one of them.

I sat down on an oval seat semi hard, and the Ventzian Warrior sat down in a rhombus suspended by a spiral coil tube , we dialogue thoroughly on the contact evacuation, him looking for the form of stopping it.

The reality is that this being is a seer, the things that it exposed me on the later **denigrations or betrayals** that would show up in the group, have been completed mathematically, for me those prophecies were difficult to be completed, but it has not been this way.

## Kosmic Kontakt

This being synthesized the contact surrendering two messages, one for the group and another for the humanity. It could be the three of the dawn when I abandoned the cosmic ship to go to the cabin to meditate, some two hours had passed when I was able to communicate with Kamika Amasshy, and it guided me in relationship to the contact that just had, and she told me that the ship was still in the area.

In the moment she said farewell, I grabbed the photographic camera and I went to the place where the ship was, it had already dawned. It was in the summit of the hill, in the distance, took the first pictures, and I began the ascent as ascended took more pictures.

To about twelve meters I took the last picture in earth, suddenly it was suspended going away heading for the exit of the sun; I succeeded in it photographing in the space.

I returned to the cabin, I relaxed myself, and again listen the loving voice of Kamika Amasshy that told me :

*“You should have caution with those graphs, you will be attacked by the vundik forces (egocentric) that are developed in all living being. More risks run with the continuous graphs (videotape) you should veil him, this ship type possesses a terrible atmosphere, and it will collapse with those who face to observe them, there will be an inversion of values in the psyche.*

*In the time that we believe convenient, we will contact you with a zeles of golden light and you will be able to present to the public, so that they are impregnated of her, although this is not required.*

*Our regency Yang Karey, it is not flowing with these projections, because this way is very easy that they accept the creator and us.*

*All applicant should demonstrate with venusians actions (of love), her intention of being integrated to us that will contact him in her time, but this is not easy.*

*Believe in the Creator with the whole heart, and with all your psyche. Look for the perfection, and this it will take you to the exodus, toward the stars.*

*The sublime light is yours.*

*Neffing Ikkaly”*

I decided to veil the videotape, I understood the cosmonaut's wise words, and I use them as margin of my personal and spiritual projection.

**The great truth is that the final objective, and the reason of being of the existence, is to conquer the fluency with our internal Christ (Budda, Krisna), Great Presence or Divine Soul, but this action is not possible, without transforming the range of defects that we load in our interior, for this reason it expressed the Great**

## Kosmic Kontakt

sister Kamika Amasshy that this of being a contacted is not easy. It is obvious that the pictures, the communications, the unveiled wisdom, etc. They are positive margins, but we should not take it as something that defines our spiritual position, because in honor to the truth I should affirm :

If somebody begins dialogues, has contacts, etc., and is not awakened or illuminated spiritually, before the law has not completed his mission in life . It not has fulfilled their mission in the earth, since for the Creative father, the important thing it is not that their children dialogue among themselves; **the vital thing is the spiritual evolution.**

Each message that these beings give us through the Ark, they are vertical, and although they are in Spanish, it is made a little difficult to understand them, and it is that the wisdom or cosmic Divine science, are very different to the human one and in what a form.

The ark, like it is erected in an hiperetheric coordinate those who have attended her, we give testimony of the mystic experiences that there one lives, although not all those that enter experiences since everything depends on the psychological state of each person.

## Chapter III

After these contacts of seventh type, the group of Cartagena requested an ark and they approved it to them, it was built and it was activated the day August first 1993. Only for final of December of that year, they had the first communication. The following message was received the day 17 and 20 of Capricorn, at hour second Bohaz Femenignus (7p.m.). The first communications that they gave us were:

“ Pasanna Ikkaly:

Save, oh! Zendus warriors.

Girdania rose opens its petals so that all inhale its fragrance, cosmocreator aroma indicated in this age.

Do not unlace a missional force, if your capacities are limited in the possible humagnus circle .

Our venust regency , the same as Girdania, rose of the mud, there it grew the thorns they constitute an external graph for the interior one. Neffing Ikkally

Question: Brother Markoth Karl, we request the communication with the teacher San Germain. ....

Answers: The Zen deity Germainth, has embodied the sound Tum, uniting to the Acirfanic cause. For their triple expression, the same vibrations are required that requested them, as much as possible 108 of the same sound fluency. Their condition can guide them in the planes of the conscience. Inform of your inquire in the camera Duet Mark 18, ubiquity 67, theocratic Regency of Acirfa.

Q: Regent Markoth Karl, we request construction principles for the ark of the city of Barranquilla and for the present :

C: To stabilize the present ark, should be hermetized in permanency with venust odoriferous . Purifying it the first day of the week. Complete this action, and project your help. The ark will remain activated by three hours, in which we will have present the individual help.”

“Pasanna Ikkaly.

Save, initiate warriors.

Our sonorous fluency, is to invite you to the weddings of Zendhus and Girdania.

The crognuslogy is in 270 terrestrial microturns. Greet the guardians of the temple with the rigor Vau, rigor Has.

The creative understanding and the restructuring of your dress, they constitute the somatized essence .

Do not try to attend with the dress that you possess. To the weddings should attend diáphagnus and contemplative.

Neffing Ikkaly.

P: Hermagnhu Markoth Karl, we request it confirms us the filming from a videotape to your ships.

C: The engaged contact, will be given when assuming your structure, 49 vibratorials levels.

Be careful, you have entered to the venust initiation , indirectly the human facets betray you, and they gave you in the hands of the terrestrial Pharaoh.

The denigration is present who operates directly, will give render at once.

P: Hermagnhu Markoth Karl, is possible some communications from Leticia, since there are building a ark?

C: Starting from four turns, unit, in continuous regencies, a stellar year, we will flow in this ark.

Intone the sound O now to amplify the ark and to purify it.

Neffing Ikkaly - Ikkaly Neffing”

## Kosmic Kontakt

The Great Brothers had promised to consecrate or to activate an ark in Leticia and another in Barranquilla.

The members of the group in Leticia, informed us that it was ready, and in the middle of spring (Marzo 19 1994) equinox, it was given life, this message was received :

“Pasanna Ikkaly.

Save.

Projection to the base 42, to activate the present ark, don't stop your march annex it kabirik (Christic) values, the venust fruits will harvest and you will be able to distribute yours. Neffing Ikkaly.

Q: Greater Brothers, we request parameters to continue the mission here in Leticia.

A: The present ark, it will be activated from the third hour, until the hour octave, solar and lunar.

The studies carried out in the psychosomatic spheres, will be surrender from where it can be invoked. Be sure in the present ark the entrance of seventy beings, before the theocratic regency of Libra to this way open the way to the visual fluency, subsequently to the human corporal fluency.

Neffing Ikkaly

Q: Brothers here the frater A. Callejas will speak to you.

Markoth Karl, I ask you with humility. For our communications in the ark without the brother's Adhe Castro presence? (I said I supported this question).

C: In each base, human suitable Souls will be erected, to guide the Ark registration. We will communicate with each base when it is required.

All contact is based in the cubic angular stone. The present fluency should be increased, assume the ark at suitable level, the four station points with venust odoriferous fluency.

The purification will be given every seventy hours and we will flow in the theocratic regency of Taurus.

Evacuate the ark.

Your priestess will direct Candem Nik Lux. The requesting brothers will direct the present ark, evacuate, and now arhat Guru intones the sound Wuu, to suspend the Graff.

Neffing Ikkaly Ikkaly Neffing.”

In the base 9 (Medellín) showed up difficulties for the construction of Ark, this took me to request an orientation to achieve the communications at a group level. These

C: The base 42 are favored by Ers-Roger. The base 17, their high command belongs to María Iky, which is in desistence action for these times. The present bases is projected by Tri Deyorad.

Neffing Ikkaly Ikkaly Neffing.

In the eternity.

Intone the sound O, to suspend the Graff.”

And well brothers, we hope what I have narrated been understood in their total expression. The field is open for the restlessness and questions.

P: Did you say that in the first contact you kneeled in a sacred place, the earth is not all sacred a one?

C: It is obvious that, but the earth has vortexes or centers canalization hiperenergéticos. These places are known as coordinates. For this reason Jehová told to Moses: “take off the sandals because the place that was stepping is sacred earth ”, spoke to him from a bramble that burned and didn't waste away. Not it could waste away because and it was not a plant or tree, this burning bramble it was a cosmic ship that seemed a bramble for their splendor.

P: What is that Acirfa is your spiritual germ and for that reason they did take you there?

C: All living being has his origin in a certain star. My origin is Acirfa and I was taken there for the coalition with my internal state or Divine Soul. We all are extraterrestrial, that is definitive.

P: Did you speak to us of some oblique streets that can you tell us of their housings?

C: The streets don't have corners, they are octagonal or oblique. Their buildings are of a maximum height seven meters, they build them with a material weight plastic, but of a great resistance, and in general, they are oval. Not they are very high, not because they cannot build them, but because there are a mathematically controlled quantity of the inhabitants. Acirfa that is the capital has an organized population of 27 thousand inhabitants, and the whole sphere has 57 bases or cities.

P: Are there children, schools and organizations the same as here?

C: The children are not born daily, when it will embody a soul, the celestial law chooses the couple and they announce them such an incarnation. They are not had secretly but when they are really required. The couple gets ready according to the

## Kosmic Kontakt

ray or vocation of Soul to be embodied. The government takes charge of the education, the one which, it is not in years, because they dominate what is the psychotronic, deeply and they transmit the education or suitable profession through the cerebral cells.

P: Do jails, cemeteries and places like this exist .?

C: Not there are jails, because the education is psychological, and who forces to infringe the laws it is the ego, and this only has a soul action in the human being.

Not there are hospitals, there they don't get sick, since they live covered by the nature, their feeding is exact and they preserve the celestial laws, when somebody will abandon its physical body, it is because has already fused with its Great Presence, and when makes it, they don't bury its body, but rather they place it in a mesh with **orichalmuch**, to disintegrate it.

P: Why they call anigood to the animal?

C: They don't call it anigood because the phonology changes in there constelational order . This was an agreement that we made at level of verbal purification. We use the sound GOOD (bien) instead of the Bad (mal) sound (remember its spanish), **to ascend instead** of lowering. For example the words: animal (in English any word that has bad or lie) etc.

P: Do other groups that communicate with extraterrestrial through the ark exists?

C: No. The ark of the alliance is the humanity's spiritual patrimony, but only it has been unveiled to us through the Zigm science, and only we are expanding the teaching and the arks in Colombia.

P: Why is Yang Karey helping the evacuation plan being of so far?

C: A thousands of years ago the Ventzians made the trial corresponding to the constellation Anturia, the defenders counterattacked, there the physical father of Yang Karey perished, they began an exodus with her ship of 3.600 diameter meters, more a select crew. They visited several stars, looking for one that was coupled to their system of life this way they immigrated to the earth, the terrestrial inhabitants (of that time) offered a great hospitality, because in that time earth humanity had Greater spirituality. When the wars ceased, returned to Anturia again. Its presence in the earth is in fact because our the time of spiritual preparation is up and Ventzians they have planned the trial, but as we don't have emigration ships, this Great being is lent it to help us with the transportation to other spheres while the terrestrial purification hecatomb goes.

P: Can you read us the message that Ventzians sent to the humanity?

R: With the greatest sincerity, since all the inhabitants of the earth should know it:

## Kosmic Kontakt

En estos tiempos sobra decir que la humanidad esté siendo controlada por fuerzas anti-Crísticas (La bestia, que es la representación de nuestros defectos psicológicos, el EGO animal), esta fase negativa afecta la atmósfera terrestre creándole huecos por donde entran gérmenes y virus de otros mundos por eso la Blanca Hermandad viene a ayudar a los seres humanos de la Tierra en estos tiempos de crisis.

## Kosmic Kontakt

One can deduce from the message if the terrestrial beings persist with the construction and detonation of bombs of great scale as the nuclear or atomic, these beings Ventzians won't allow that we destroy the Earth, they would punish the humanity like in Sodoma and Gomorra. It is outstanding to say that already this happened in this solar system in a star called Humagnolia, where it reigned the wars and the wickedness (as in ours) they made them the same warning and they made remiss case giving to place a war between them and Ventzianics, the result was that these last deposited 67 fazz ( vibratorials bombs) that disintegrated Humagnolia giving what is known today like belt of asteroids.

P: Why don't those messages that are received in the ark aren't mostly understandable?

R: The Anturian language type , belongs to the verb of the solar stars that are favored by the divine central sun. They are beings that have overcome this spiritual stage in that we are.

Their vibratorials duplicate and even triplicate ours, for this reason a difficult point is to understand them. It happens equally in the Bible or sacred writings that was written by illuminated beings with good vibratorials levels, and if to the moment to read it, we are not syntonized with the writer's spiritual level, you understands it to their pleasure (opinion), it distorts it and it is deceived, the same and who "guides". For that reason the terrestrial sphere is full with beliefs, churches, dogmas, etc.

P: If all the extraterrestrial are spiritual, why are there stories of deaths caused by these beings?

R: **We have NOT said that all are spiritual.** We refer those coming from the constellation of **Anturia, Pegassus, Acirfa** and others that belong to the divine central suns.

Beings that inhabit far from the spiritual suns, also exist and to these it doesn't interest them the divine part, their advances are projected at technological level. They have visited the earth and they have made demonstrations, among them we have to the blackout of New York. The traveling animals have also proliferated, which were trained technically by their superiors, learned how to manage the different graff. They stole the ships and nowadays they travel for the universe in search of increasing their capacities.

P: Are all the ships same in the technical part?

R: Everything depends on the area or bases of production. Some travel with Bhalassa (this it is kind of a combustible synthesis), other they are processed with solar energy and the power stations travel with cellular but well-known energy as psychic energy.

## Kosmic Kontakt

The animalistic beings that I mentioned previously, inverted the graff of psychic energy and they load their condensers with subjective energy, which condense in the stars that belong at our spiritual level, place their condensers in the etheric part of the stadiums, and they take advantage of the subjective energy that exteriorize the assistants, either in the moment in that enters a goal, or when they give a good blow to a boxer.

P: Many of the contacts that we listen in these times can be hallucinations?

R: Yes, it is certain that some people have been dreaming or another thing, that which they take with seriousness and they rush to speak of the phenomenon. We explain the life of the Greater Brothers because we possess pictures and recordings to demonstrate it, a camera or recorder can not suffer of hallucinations.

P: Who will they evacuate?

R: It will be evacuated all that that achieves the vibrational level with which arrived to the earth that is of 33.07. Not caring their beliefs or religion, race or nationality. This is because the levitation ray syntonizes with this level and it will absorb everybody who it possesses it in the moment of the evacuation.(in the moment of the terrestrial cataclysm)

It is necessary to say that this of the evacuation corresponds beings that are in process of ericcion and awakening is been, that is to say in a progress spiritual notable for that reason the **Bible calls it the chosen ones**, this **evacuation only will be given in the moment of the end, and not before as many seek**, since it is not about to travel or to carry out a walk but of preserving the humanity that will begin the following race, later to the purification of the earth.

They really exist thirteen bases that they will receive the Creator's blessing, but an Universal Tridentus exists, formed by Mexico, Colombia and Argentina. In the hierarchical order at level of bases, from the point of view vibratorial, they are organized this way:

XOCHIMILCO (Mexico)  
CLOTOSSY (Mexico)  
EASTER (Chile)  
CUZCO (Peru)  
MIRIBIA (Islands Caribbean)  
SALEN (Argentina)  
MAGANGUE (Colombia)  
KURIAGA (Bolivia)  
MARTINGALE (Costa Rica)  
BELIZE (Guatemala)

## Kosmic Kontakt

BELEM (Brazil)

GUARANAI (Venezuela)

SAWWA (Brazil)

In these bases or cities, they exist coordinated that they syntonize with the vibratoriales GRAFF of the confederation Anturia, and they are the sources or magnetic chacras that have worked as fields to balance before the etheric order of Center and South America from very old times. As it is natural in all the countries of the world there will be evacuation, they will be attended by other confederations (At the moment that is to say 1999-04-16, there are six that helps the earth, among which Pegassus and Anturia are)

These confederations are already contacting to their psychic arks (people) that for some time come preparing.

This of the evacuation and contacts are of much care, since they exist beings of light (spiritual) they not only exist but rather those of low spirituality or low vibrations also exist that doesn't interest them the life, but taking advantage of the human being extracting their semen or ova for experiments etc. This warning is for those people that its goal in the life is to board a ship, or to be contacted. For that reason we **DO NOT in this institution or group** look to board ships or to see extraterrestrial. What interests us it is to progress spiritually.

P: Why Luk Splendor said that won't be able to enter the ark those that go against its sexual part ?

C: The sexual organs are a principle of life they are sacred.

In the book of Deuteronomy Cap. 23, verse1 says: "Not will enter in the congregation of Jehová who have mangled their sexual organs". However, the Greater Brothers have given keys to the women to fortify their trumpets in the etheric part, the same thing to the men that had made the crime of intersecting the spermatic conduits or the call vasectomy, because the materialistic scientists will be able to cut or to destroy the trumpets in the physical part, but not in the etheric configuration.

Next we will transcribe some of the communications faithfully but vital so that the humanity understands the current situation of our world and her relationship with the celestial worlds.

We know that many of the people that have been interested in the group, are because and they think that some day they will travel in UFOs or to know the Great Brothers personally . We want to clarify that this is not so easy, our humanity day by day, makes disastrous actions, against the life, against the creation, against itself. These actions impede their spiritual evolution. For a contact of seventh type with the white fraternity is required spiritual disciplines as well as to go up the grades of the soul and have the full security that if you or who is it arrives at that level, it will no longer aspire to the contact because will have the contact with its internal **God** that is the important thing. Reason why the visit and the help of the Great Siblings is in fact to guide us to the Spiritual liberation.

When it was given the public the codes given by the law of God, a lot of people that didn't have spiritual intentions retired. At the moment the people that are in the group are after our celestial Soul incarnation (Christus, Budda.,Krisna )

The last communication was received the day 27 of Libra year 36 of Akuario (Oct./97):

### I DIALOGUE WITH A COSMONAUT

P - Our ships are able to travel similar to those of yours?

C: If we link one of your ships to ours, traveling to formal speed, when we arrive to Woolaghnú, they would not be material rakes of this, it would not resist the speed disintegrating in the hyperspace.

P - With what metal do they build the ships?

C: According to the objective, but all are coated with ORICHALMUCH that protects them and helps to resist any speed.

P - Do accidents Happen in the space?

C: Not In any phass. Before leaving to the objective we locate in Hyperspace Graff, the tunnel or empty coordinate, we submerge traveling to any speed anywhere around.

P - With which energy travels these ships?

C: Everything depends on the area or bases of production. They work with BHALASSA, with a tube of five cm. We can travel for twelve hours, enough to travel to our bases here and to return to our origin. Others travel with solar energy and the most sensitive with cellular or psychic energy.

P - How big is your planet and their inhabitants?

C: Our star is sixty two percent integral earth, A balanced area of 17 millions 312mil square kilometers. With an orderly population of 1 million 150 thousand inhabitants, in fifty six bases.

P – Are they All spiritual, that is to say without psychological defects?

C: Not we are teachers of perfections, we look for the perfection. 68% if we look for the perfection openly. 17 impartial% and the rest are opaque invibracionals, but the technical and other states, they are directed by the Theokrátical guides.

P - Is the day and the night the same as here?

C: For cosmic law, to all star it corresponds a balance between the day and the night. In most of the bases we possess cosmic reflectors that allow greater solar illumination. In Boolaghnú there is 75% of day.

P - Do they consider the earth like a primitive planet?

C: The inhabitants of the earth in other times have had advances, but the natural unfavorable changes have put an end to them. From our angle we classify to the planets in 24 levels, locating to the earth in the camera 13. In stars like ORMHEDHA, not yet the wheel is known, it is more primitive.

P - Why do we age prematurely and do we perish?

## **Kosmic Kontakt**

C: The lack of knowledge is the main enemy. In your organism an opaque virus exists, of the type UNSHINAS, undetectable for your primitive apparatuses, this it absorbs the vital fluid of the neurons and sanguine system, even showing up the premature disintegration before the physical death.

P - Can we eradicate that parasite?

They exist antivirus that not alone they eradicate it but rather they revitalize your organism. Everyone evacuated will be subjected to this preparation, to be able to conserve your body for about 700 terrestrial years.

P – What can you tell us on our origin and the seven days of the Creation?

C: They were seven days, but not in series. To one day and another passed hundred of years and also...

They are really many questions and answers, but unfortunately the spaces don't give margin to give them once and for all to the humanity, these they will be given later on...

Based in the above-mentioned we clarify :

### **HYPERSPACE**

A not very common word but that it contains the synthesis of the existence. In general all that is made had a planning, with the result that the elders had like four basic pillars for the development of life. These pillars are: the philosophy, the science, the mystic and the art. The philosophy is who determines the created, that is to say, thinks - i imagines (here has space that axiom or celebrated sentence of René Descartes, I think and then I exist), the science investigates, the mystic Christifies and it provides the continuity of purposes, and lastly the art creates.

In the nature we have seven basic dimensions, we want to also make mention to the sixth dimension or theophanic world (causal plane) or called space. The hyperspace is the sublime and mystic part of the space, only that it is "binded" to all the dimensions, this means that each dimension or object –including the human being - it possesses hyperspace.

The scientists in their investigations that go in development, affirmed that the matter, when being divided, the object was internally incomplete, later is discovered that the molecule even tiny it possesses principles similar to those of a mass or mass in power, and further on, the atom that was considered the most tiny part in that you could divide the matter, it also possesses the same qualities and it structures. But the scientific investigation continues, the atom, if we divide it, looking for the molecular maximum internment, we meet with the quartz that the was also believed

## Kosmic Kontakt

most tiny. But the investigation continues and today it is known that the quartz is the synthesis of 24 pigments –pigmentation -, 12 of matter and 12 of antimatter, that antimatter is not another thing that the base or space, the one that unquestionably will give step to the HYPERSPACE.

Some metaphysicians believe that the hyperspace is the fourth dimension, however a bullet shot can cross to the hyperspace but not to the fourth dimension, the objects or a ship specifically can enter accidentally to the hyperspace, but it stops its conduction, it is required of conscience, this conscience is not necessarily shown in the fourth dimension or astral plan since is an –astral inferior world of desires -, a ship can enter to the earth with the same velocity, only that it enters in that hyperspace region of the earth that is not another thing that the second and first dimension.

In the same that the television first it was invented in white and black, the law of the evolution took to the scientists to invent the television in color, likewise when navigating for the space, we will end up discovering the hyperspace. To enter in him it is required of an instigator, kind of a “spring” or mechanism that it impels the apparatus to that magic area of the nature. The wise messages of the cosmos guide us: *“one day the terrestrial ships will reach the hyperspace, and this will allow them to travel infinite distances, they will learn this way that the time and the space overcome and they are collapsed one inside the other one and they become unified. The hyperspace is full with danger, the dilation of the time among them with the speed, the mass of the ship expands until being destroyed, many travelers got lost and they died, for you it won't be easy”*.

What this cosmonaut guides when saying that time and space overcomes and they are collapsed one inside the other one and it becomes unified it is the precise key so that the scientists discover what they yearn, that wonderful road that would allow to travel from an end to another of the earth or of the cosmos to the speed of the light. The hyperspace is full with tunnels, conduits that the navigator discovers and he goes into them, if it doesn't possess the form or the apparatus to enter in that tunnel, but logical it is that he gets lost and don't return more to the earth. Cases of magic disappearances are known without return. It is logical that a ship to travel for the hyperspace should be built of a material that resists the speed or friction. We have the physical space for which the airplanes travel, but there we have the abstract time and this it is the one that impels to the ship to enter in the hyperspace, it is in this part where the conscience is required.

In electronics we study that the wave hertziana travels to a fantastic speed depending on the cycles hertz. We have this way that a.m. or modulated width, we find in the well-known scale as Kilohertz (Kilo: thousand). F.M. or modulated

## Kosmic Kontakt

frequency has more , Megahertz (Mega: million). To a bigger quantity of cycles more clear or better it is the transmission (displacement) with the result that when we are listening a station in A.M., the lightnings enter in that quantity of wave (thousand) ,that doesn't happens with F.M. since they are elevating the wave level that is isolated of the physical part or natural visible phenomena, it is what but comes closer to the hyperspace, for this reason there are not accidents in the hyperspace.

In the metaphysics there are points that are crisscross and this makes some students to confuse them.

When we turn off a candle, where did the flame leaves? And her fine or wax? Not we can say that it leaves to the hyperspace or when the clothes dries off we cannot say that the water leaves to the hyperspace , since it also exists before our eyes the state or area colloid.

In synthesis we can say that the hyperspace is an energy area to the one that only we arrive when we syntonize with the energy Ki - instigator - together to an apparatus.

### A DIALOGUE WITH YANG KAREY

Fiat Lux sister of the space I am favorable to the transcription:

In agreement to reports of the confederational type vigilants , in the earth there are hospitals for the inopaques (ignorance or darkness), jails where they contain those who make errors. They also possess cemeteries to deposit beings' bodies that have lost them and absurd and harmful many aspects, not only for you, but for the near systems. You are being participated of the universal knowledge and you can understand our statements.

Q - Is that in your constellation jails, hospitals, cemeteries exist?

C: All that existed in unimaginable times. When you arrives to a chronological end that body it is abandoned in will and it returns to their origin place through the hiperfricción or teledimensionalidad.

The governments of the earth ignore that this it is a jail planet or star , of where they won't be able to leave until being had compliment the chronological facets determined by the theocratic confederations .

In the times that we immigrate to the earth, what you call illness didn't exist. The physical decadence is direct or indirectly provoked by you.

## Kosmic Kontakt

P - Fíat Lux, according to what has been told, has indicated us each living being has its origin constellation, does it mean this that all that that is evacuated will be taken to its origin place?

C: It is not about a radical evacuation, it is a transitory time for a natural coercion. After the geologic and astronomical changes, those transported will be returned to fulfill the mission that were commended thousands of terrestrial years ago. With the difference that the spiritual human and psychic position, will be more transparent. But that is not everything, to achieve to be transported, they have to elevate your vibrational level at levels superiors. Who don't assume those levels (33.07) they will be isolated to the cameras of life that are below your feet.

The days come closer, the hour and the moment arrives in that will have to become visible for you and all the inhabitants of the planet. This action will cause the death to many people, those that are below the vibrational level of 26.92. They will die because they won't resist the level of our metallic vibration and ectoplasm.

Many have been contacted and erecting, but they ignore it, since this action is given through the chronology called dream. All this received by merits of the spiritual Sound (Great Presence, Divine Soul or internal Christ) that projects to the physical (human soul) sound.

Increase your unconditional help then, erect thyself and their fellow men. Not forget that our projects are linked to the Creative Father's laws and who doesn't get up, it will perish the same as many of ours in the time in that the luminous path was victim of the Ventzianics attacks. There were continuous wars especially in Hura, Yemen and Harbin. For the wars we emigrate, and for cosmic stability we arrive here. In this place there were Peace, Harmony, and Spirituality in fact we were very well received by you, they provided us the human and spiritual consultancy the whole time that we remained here, which was of 49 Harbiniks days, it is equal to hundred of years in the earth, since every day is 370 Omepersck and an Omepersck represent it is equal to 13 terrestrial years.

Today are you who require cooperation, and we are here to compensate that benevolent action that you expressed.

You don't possess ships to begin an exodus toward the stars, it is that non even possesses the hyperspace graff that allows to detect the coordinated for where they must travel. You ignore the dangers that exist in the universe. Neither are enabled of a hyperspace instigator. The microimpulsors that you the terrestrial ones possess, they use them in the destructive weapons.

P - Fíat Lux. As you is explaining to me advanced aspects of technologies. What is the triangle of the Bermuda ?

C: What you call Triangle of the Bermuda, corresponds a Teledimensional Graff that was covered by the waters, and that it belonged to Atlantis like active center of objective cosmic experiments. It is about a Gibraltar with having hiperetheric

## Kosmic Kontakt

measures, as those of the ark of the communication. You ignore the capacities that has the Ark, so much for the form, like for the measures. This Gibraltar has 70 meters long, and 42 of wide and high. Is located in a magnetic bipolar quadrant, this at the same time is erected on 3 triangles or centripetal entrances. This only transports beings that possess a level bigger than 22.19, what you call plants or animals it cannot transport them. These species can be transported to the fourth dimension, by another Gibraltar of elementary vibration. This it is alternated with others. When Atlantis collapsed, it was programmed to be activated in these chronological times. It was built to carry out practices of cosmic type and to teach to the inhabitants of the earth.

FIAT LUX

### VIBRATORY LEVEL

It is then notorious that the teachings of the universe correspond to the Christ's doctrine and that like it is logical it demands us to be in harmony with the universe. In previous messages we mentioned that to be able to climb the soul states ( see author's: blue book). It is required to be in balance in the soul, energy and physical body. All this gives an total energy that denominates vibratory level, and that it corresponds to the seven main centers of energy that we possess and that the Sanskrit ones called then chacras :

Reason why the vibratory level with which we arrive to this world is 33.07, but for the quantity of psychological defects that we possess, for the polluting feeding that we take and mainly for the fornication (ejaculation and orgasm), this level is diminished. Then the current humanity has a level average of 30.05 or 29.97. In these states it is impossible the fluency with the celestial and much less beings with the internal **Christ**. Reason why the brothers of the space recommends us that we elevate our level at the 33.07 (**pre - ericción**) and as from there the spiritual or soul ascent begins.

Obviously knowing our conditions, they have guided some practices that allow us to channel the energies of the universe and of the earth. Then the earth has energy centers also called chacras or vortexes that are channelers of electromagnetic forces

## Kosmic Kontakt

that arrive of the space (colloids) and that we can channel them toward our interior for our regeneration and vibratory evolution . But it is necessary to remember that the only thing that maintains our vibratory level is conserving our sexual energy (semen in the man and vitriolis in the woman)

They have guided us a practice very old Sanskrit, like they are the runes and mamtralizaciones.

## PRACTICES

### **The Rune Hagal:**

It is practiced preferably in the dawn if not in the nights, it can be carried out in group or individually. It is practiced this way:

Draws a circumference in the floor, of about 70 cm. Of diameter, locate you in the center, lifts the arms to the highest. With mystic sense it expresses a prayer to the prophet —RaHoorKu (you can also carry out it with the sound of Christ)

*“Come, come, come, prophet of Hod, prophet of Ra-Hoor-Ku. Rejoice now and come in this instant toward our splendor (aura) and toward our loving delight. By your mediation we want to receive the help. Oh great prophet, you can conduct us (Inhale) ”*deeply and it begins a right turn to left but slowy and concentrated possible. It imagines that the energies and vibrations in centripetal form that arrive to the earth go into in you through the turns, these energies arrive in spiral form. In the turn you retain the air.

When finishing the first turn, the arms should be in horizontal position, that is to say that you go them lowering as you rotate.

( see drawing).

## Kosmic Kontakt

With the horizontal arms it inhales and it begins the second right turn to left retaining the air. When finishing the second turn the arms they are forming acute angle. Here you begin another turn retaining the air, the arms now play the thigh, then the angles getting up until being in the initial position to begin the second rune.

To begin you can practice about fifteen minutes, these they go being prolonged until being able to assimilate a daily hour.

**Breathing Exercise:** Heels together, arms relaxed. You close the lids and you inhale, when making it you will go lifting the arms slowly with the palms of the hands down when arriving to the height of the shoulders, you lift the palms with the tips of the fingers up. Take them to the front and you will go them picking up toward the pectoral. To exhale the you will lower slowly until being in the initial position.

## Kosmic Kontakt

**Vocalization or mamtralización:** These exercises are objective and they are guided to develop our energy centers. In upward order, they are vocalized from **S** until I. The **S** it is vocalized on your knees, you lean back until being sat down in the heels, the hands should be hit forward to the front of the shoulders and their palms concentrated in the coxis, you inhale and you vocalize this way: Ssssssssssssss, you go getting up while you intone the vocalization, being in your knees ,you lift the arms simultaneously as if you will fly.

## Kosmic Kontakt

**M** is vocalized on your knees with the extended arms toward the sides, you will move slowly toward before and back, increasing and diminishing the tone of the sound Mmmmmmmm, deeply concentrated in the sexual area.

The vowel **A** is vocalized taking the right hand with the palm down to the height of the heart, and the left to the height of the solar plexus (in the women) . With the left hand to the height of the heart and the right to the solar plexus (man). On your knees you intone Aaaaaaaaaa.

The vowel **U** it is intoned uniting the index finger and thumb of both hands that form a triangle, take it to the height of the solar plexus you concentrate on this center and Uuuuuuu vocalizes.

## Kosmic Kontakt

Now you vocalize the **O**, placing the hands on the pectoral. The women unite the palms of the hands and they take them to the center of the pectoral. Concentrated deeply in the center heart you intone vocal Oooooo.

## Kosmic Kontakt

The **E** it is intoned uniting the thumb, index and half finger, take them to each side of the throat, since here the Laryngeal chakra resides, and its regeneration is indispensable. You Intone Eeeeeeeeeeee.

Lastly you intone **I**. For it, locate you in position of squatting, that is to say, sat down on the heels separating your gluteus a little . The index fingers up, look to the front, you inhale and deeply concentrated in the pineal gland (crown) you intone the sound llllllllllll.

## Kosmic Kontakt

When these sounds are intoned and concentrates on the respective area the sanguine circulation concentrates there, purifying and activating these centers

All these exercises should be carried out in our houses.

In these days of April of 1999 we have received messages, since we are before adverse events. Of these we want to share the following one given by the Theocratic Regent of Faruhna:

*"You, living beings of the sphere earth, the objective of the confederations and central federations that we enter to the terrestrial atmosphere to contact you with Creative Father's permission, is to guide them, to guide them in the celestial plan. You are in the beginnings of a new stage in your lives, bigger grade of understanding will bring you to near of our Universal God, they will allow you the effluvia that approach to channel the messages that the cosmic messengers gives to those who accept its presence, harmoniously and those that reject them, were prepared in code at a reflection level characteristic of the Theocratic controls, all this corresponds to the genesis of the present times that are transformative. The Apocalypse is calling to the genesis and this has listened to the call to begin the light stage.*

*This majestic change is before your eyes, it requires for it to go by a cycle of manifestations that many call unfavorable, it is as if a visitor will announce you her arrival to your house, immediately you would clean it, only being the stones and destroying the garbages. The celestial order is projected to call his brethren, be attentive, watch over, because the external hearing is not good to listen the spiritual guide that will drive you to the age of the nascent sun.*

*In each one of you are beings that represent the creator of the universe, that is the image that you possess of God, it is that the energy and form, they cohabit with you but you don't perceive it, it is this the coalition that we look for when contacting you, a coalition that becomes intimate, an integration like beings that we live also the present days in a time, but we decided in our time, to transform entirely our feel toward the creation and with it toward our fellow men, they finished this way the wars, hate and chaotic other points that we took with us, other worlds that didn't transform, they were transformed by the universal conscience.*

*In you from the beginning KAMIKKA AMASSHY*

## Kosmic Kontakt

### HERCOLOBUS

In the course of the messages that we have given up till now, we have not wanted to speak neither to deepen on the purification phenomena that it comes to the earth but rather we leave that you, kind reader, reach his own conclusions. But like theres little the time we are forced to at least to comment on the sphere Hercólobus, this it is a star that belongs to inferior cameras in the universe and that an orbit travels in the cosmos, in each cycle of those passes or go by the earth, in fact it goes by 42 spheres or planets that feed (energy and souls) to him. Then it is that for these times it passes again by the earth, this already was known since **Michel of Nostradamus** prophesied him in one of his centuries:

*In 1.999 the great king of the terror will come from the sky*". The objective of Hercólobus is to go by the earth, for forces of attraction and gravitation etc., it will cause the displacement of the terrestrial poles, this would bear to earthquakes, tsunamis, eruptions volcanic etc. We simply transmit the message. The venerable Teacher **Samael AUN Weor**, founder of Gnosis in Colombia, and in the world, also talked clearly about this planet and many of their followers proclaim this truth.

As scientific of the esoterism or Christic metaphysics, we were given the opportunity to have a dialogue in the internal worlds with the **soul** of Hercólobus. ( Because yes, the man that is less than a world or planet, has soul and spirit, a star or sphere too. The earth has soul and we inhabit that terrestrial soul).

With spirit that you verify the real message, we transcribe it faithfully, some passages will make parenthesis with the respective explanation.

### DIALOGUE WITH HERCOLOBUS

"The abandonment of the physical body (travel astral) was directed by the instinctive body, locating me in a forest or area full with dissected cultivations. In the distance a field was seen without trees, only with grass, I arrived there and bend a knee to earth, the sun was rising, if a question of time, it could be said that was 9am o'clock. In the place where I stopped the grass were withered, was an immense field. The sun went clouding over and began to fall rain and an icy breeze ran from east to occident, it was temporary. Again shines the sun with intensity, like at 11am o'clock. It was the instinctive same body who made me feel that something came closer, a noise made me turn looking for their origin, saw my shade before, this went disappearing at the time that the sun declines.

## Kosmic Kontakt

Something was behind me, the intense energy that that something sprouted made me feel it, slowly I was listening voices or noises, it was intensified, they seemed voices similar to of the corridors, churches, etc. It gave the sensation or sensed that they were pain voices. Staying in prayer I turned until being in front of that enormous being and without form (if I describe it body all we would coincide that it is horrible), I didn't feel fear, was a being of about 4 meters of high for six of long, forms of monkey or chimpanzee. In the air I listened the song of a rooster transparently, continued by that of a dog, later on an elephant (trumpet) and the roar of a lion.

I felt an unique silence (resemblance to the one that, in an experience with my Greater Soul showed up, when asking the Guru: teacher why so much silence? The Teacher answered: it is the love that's going by)

That being moved his lips to say: Ikkaly Ikkaly", their voice was desperate, strong and quick. For understanding of the dialogue I am To and the being H.

To: Salutation great being

H: Great being what?

To: Not I, can give epithets, only that you who speaks to me, possesses cosmic authorization.

H: In all the times and forms I have been named.

To: In my case, I cannot say bad or good, the external mind tells me that it is a disastrous (Lucifer) being, but spiritually you I know that you're a key piece in the Creative Father's plans.

H: If all the inhabitants of my descendant terra (earth) have that conception, the dilation of our orbits has already been given.

To: Those voices or noises that are listened in the distance, they are?

H: It is the multitude's of souls, egocentric scum that they inhabit my body, souls that didn't want to be defined before the universal custody, they belong to the 42 stars that sustain me, stars that contribute forces for my stability and of them in each cycle.

To: Among these logically is the earth.

H: Each sphere evolves spiritually to dilate its orbit of our corpus (the planet) and to be isolated of the chain of cataclysms that geometrically govern it. Only some are purified once and they take that experience like bases for not repeating the action.

To: Do you have representatives in the earth?

## Kosmic Kontakt

H: It is a law of likeness, numerous it is the number of what you call representative as of those that are registered to be taken children ( refers to the souls that it will be taken to inhabit that world, I say souls because they are human beings that will perish the in final cataclysm, like it is logical these souls won't return again to the earth but rather they reincarnated in Hercólobus).

To: Can what you call orbit dilation do it the eathlings and what orientation or clue is there?

H: Hermetcally they are given in the solar age (age of gold or high spirituality) , in this Saturnian age (final, since everything governs from Moon to Saturn, for the terrestrial ones) they are public, but it is late, the decline will finish welcoming the elementary (little evolved or basic, him) one. Wulagnú (star of the constellation Pegassus) in its age was covered with the noncosturated mantel later DEMARY (cosmic mother) to this the sacred ovals ( guide spiritual)rose that remain until our days.

To: Your proximity to the earth in What it affects the humanity?

H: In the living beings of the different Kingdom, they possess the mental world and the visional world , our orbit crosses accurately for the center, this is represented as a wall that impedes the communication. The three parts of the terrestrial constitution will be divided, the organized thinking, the wise feelness and the current intelligent one won't have correlation.

To: Why does it have to be given the hecatomb, is it a karma of the earth?

H: In all created exist cycles, times that for you understand, these cycles have a created birth and they have an objective of stability. Each creature has her cycle, when being concluded, is fundamental her transformation, this is the law and it should be completed.

To: If there is not form of avoiding your intervention, what time have we to prepare the land or promise land

H: In the next regency sun - Leo closes the cycle (Julio - August 1999), the virgin (August September-) he will pray and it will bless the son and the veil that covers our presence will run.

To: With all the respect, but with all frankness, where it is the godfathership that the earth has in Vajratawa YANG KAREY?

( In that instant the silence makes its great presence, the sun it shines intensely and the voices disappear. Not you as much as time lapsed, but everything and slowly it returned to the previous state, I understood that the silence is the eloquence of the wisdom.

## Kosmic Kontakt

It is necessary to write down that all that we have lived with the Greater Brothers owes to the infinite kindness of the stellar soul **Yang Karey** who has taken responsibility of the earth to transfer the earth to a **hyperspace** order and this way to avoid the presence of Hercólobus, for they have been given missions that consist on taking the Cristic or Divine message to the whole humanity.)

To: Can one speak of soul figures as for the quantity of people that will perish?

H: Our body (the planet) will receive to a thousand eight hundred million human souls, those that won't return to the earth will inhabit our body.

To: Does it mean this that other people if they take body in the earth again?

H: Have in reflection that great quantity of souls finished its cycle of manifestations (the 108 lives), they won't embody quickly.

To: Will you cause cataclysms eternally to the stars for which it orbits?

H: Everything is organized, it is interest of the stars to be integrated, to create a conscious atmosphere that speaks for them, that give life to their creator that the wings drive partially outside of our orbit who have made it, has helped us to liberate the mechanism, when traveling collectively, to this same being it will be given the white seed that will be transformed in the primary race of gold lot. (In these moments I tell myself: "it will be in millions of years")

H: Not there is hurry, there is crop time, of seeding and of plow.

To: What future awaits the souls that inhabit your body?

H: Knowing the sin and understanding it in their seventh manifestation, they are ready to be been godfatherd by the angels Vajratawas ( Cristic Soul) that occasionally cross the stellar light Hercolis.

To: As the earth it is classified from their point of view?

H: Cosmically it is located in the camera thirteen, luminously has likeness with this being that speaks to you. (What means that the terrestrial humanity is as disastrous as that of Hercólobus)

To: Great being, aspire in a time to be Luminous presence?

H: If you were able to understand the laconic static, you would see which is the difference, if this happened and the continuous of the grizzly line, another being would be in my place.

To: As you can see who speaks to you it is located in the metaphysical path, I require of a key or method for psychosomatic protection, non for me but for 30 people that syntonize with the doctrinal order.

H: Your soul states project the formation of libelus sparks in your contour, they are forms of to be born and to sustain the life in the universe, all the creatures are forms of genestic expression and from that point in that you can even be isolated germinal radical chaos.

As giver of the cosmos, this substance lives, it palpitates in each creature, subjected by law to the interior journey, for Deu reflection (reflection of God) you are of our body, these as all, tied by conscience, 54 suns before being drawn the veil, most of the humanity will vision the path that will lead you for promise to the isolation. ### EPILOGUE

As they have been able to read up to now, the teachings of the celestial beings. they collide with those that up to now have guided the aching humanity, it is for this reason that the wise apostle Pablo says in the Book of 1Corintios 2, I verse 6 a10: *“However, we speak wisdom among those that have reached **maturity in the faith**; not the wisdom of this world neither of the powerful of this world that perish. But we speak wisdom of God in mystery, the hidden wisdom that God foredoomed before the centuries for our glory, which none of the powerful ones of this world knew, because if they had known it, they would never have crucified to the Lord of glory. Before well, like they are written: “Sew that eye didn't see neither heard neither they have ascended to the man's heart they are those that God has prepared for those that love him”.”*

It is hardly logical that those that we are diffusing the Christ's (that hidden wisdom that for these times of conflict, God had allowed that it becomes public) teachings are pursued by the same humanity that receives them. In certain occasion the venerable Teacher Zigm Gnanak said: *Each “teaching that you impart the humanity, this will pay you with bitterness, with incongruities, it is the payment that you will thank them in reverent form. The satirización (laughter), is an universal money that will arrive to you” in good time.*

In the path toward the liberation that is the same one that drives to the Creative Father, know each other or several mechanisms systems exist or technical, so much millennial as trivial, all with a common denominator: to return to our Genesis.

The return to the genesis or origin, if it is really exact, it requires unavoidably of the sacrifice that like it is logical it is accompanied by pain, these sacrifices are not very comprehensible for the common of the humanity.

In Bragavad Gita, Koran, and our sacred book The Bible, narrates the experiences that the initiate ones or prophets lived to reach the soul magnification .

Moses, that initiate one that developed the electric power of the will, even faced his same town. Pathetic case has it in the faithful servant Job who gave transparent samples of its mission, suffering not only economically, but in its own organism. José is sold by his siblings like allegory (Genesis cap. 37). Daniel and other prophets also demonstrated fluency and submission.

In the new testament they become present the redemption actions: Juan the Baptist was beheaded and with it gave beginning to the dancing head that is not another thing that to behead psychologically, somebody to speak of him to dance

everywhere. Jesús the Christ like incarnation of the living God was submissive until the crucifixion. The apostle Pablo the gibe of the jail lived. Equally Pedro (Facts 12,4 and Facts 16 of the 23 at the 26).

All want to know why another is chosen for heaven's sake and not him , all the prophets go by the same circumstances.

The torture is then a mechanism that when it is directed by enigmatic and theocráticos threads, full or it allows the man its magnification. The case lived by Mahatma Gandhi is different –parallely speaking since was– the accident law who became present in this action. There are people that cohabit with any illness, example the cancer, for many years, others have remained equally in a jail a time. Is it punish of the sky?, recurrentcy?, an accident?, autoproyección?, self-centeredness?, triviality?

The fifth angel of the Apocalypse lived the viacruxis so much the prison as pathological and this last who took him to desencarnación .

In general terms we can say that the iniciatic levels come accompanied by setbacks or calamities in different forms and applications. It is in these circumstances in that the initiate one exclaims: My “father, if it is possible put away of me this chalice but my will ,is but yours”. To this we can annex the hermetic“ axiom: The circumstances are good or bad according to the will and strength of your heart, learn how to convert all difficult situation in a arms for triumph ”

We have to clarify that not all the cases of suffering are soul tests, since there are things that the same person search for example: if you have nutritious bad habits as taking hot soup and later cold water, this can generate stomach uneasiness with later gastritis and if becomes chronic (a lifetime) until a cancer. Or if somebody steals or it kills and they put him in jail, this the person created it, looked for it.

To discern is the important thing, to know when a certain viacruxis is human or of the soul.

We made this comment because it is natural that when you want to change your life to a new one, the old one pursues and torments the initiated.

### PRAYER

In the genesis there was not existence but neither nonexistence, only the energy existed and however it was not manifested, the being breathed and however he didn't have breathing.

Not something existed, neither anything existed. The radiant sky didn't exist neither the celestial immense vault extended to the high thing. What did cover everything cover ~? What did it cover it ~? What did it hide ~? Was the unfathomable abyss of the waters ~?. Not the death existed, but nothing was immortal, the limit didn't exist between the day and the night, only the ONE breathed inanimate and for it, because any other that The has never had. It reigned in the darkness and all principle was veiled in the deep darkness of the ocean without light. The germ until then place setting in the cover of the night makes sprout a nature of fervid heat. Who does know the secret ~? Who has unveil it ~? Of where, of where this diverse creation has arisen ~? The same God came to the existence. Who does know of where that great creation came ~?. Well that THEIR will has created it, well that it was silent, neither high seer in those but high worlds know it, or maybe neither even he knows it.

Contemplating the eternity, before was put the first foundations to the earth, You was, and when the underground flame breaks your prison and devour the form, you will still be You, for eras, without suffering any change, even when the time doesn't exist, Oh intelligence infinite, divine eternity ~!. Allow me to be integrated to you to live eternally in you and to achieve this way the final objective, the reason of being of my existence, to arrive to the Creative Father as origin of all the existent one.
