## INTRODUCTION

"When science enters into your heart and wisdom to be sweet to your soul, ask and you shall receive"

Peace and life to all the brothers who read these words. The sacred truth is that this message was delivered from the infinite cosmos, the God Father and Mother Goddess as the message of salvation to humanity that has fallen into degeneracy. Only those who have the sense to seek God can understand the lessons, because they recognize the wisdom which does not possess.

This message was delivered in golden language or verb (symbolic), that is complex for ordinary humanity, so will translated to a language understandable to the ordinary human being.

Our goal is that most will get the message and every human being to awaken spirituality regardless of their religion, and that to Father God and the cosmic Virgin there is only one religion: that is the reencounter of every person with his or her Inner Divinity.

The message is in the form of dialogue where one intervenes and is complemented by the other. The wisdom of Christ enlightens you.

**FATHER:**

**To You**

**That in your prayers you call me for help, to get where I AM with my Son, the Christ.**

**You've cried and I've regretted asking forgiveness for your sins.**

**You ask forgiveness in exchange for good deeds or promises of them.**

**Before I answer you, calm down and harmonize yourself in your thinking and your emotional states that are altered and prevent you from hearing my voice and sentence. Now in this instant, you just listen to your ego and what it needs.**

**MOTHER:**

**Every step you take toward God, danger lurks to take you down and make you give up, but if you decide to change your sins or vices, which is the first part of the path to the Christ (the narrow way), let me tell you that the greatest danger and enemy is YOU, letting your own ego convince you or lose the will to follow the path to God (the wide way).**

**You have keys and means in your power to transform and destroy the thieves or vices from the Temple.**

**DO NOT get distracted trying to figure out how close you are and how much spiritual practices have to do, just concentrate and one step at a time and you will see yourself going up the spiritual ladder.**

Wherever you are, where you live is actually the right place to search and meet God because it has omnipresence. The pilgrimage is internal (spiritual) no external (travel to such city or other).

FATHER:

You are blind, deaf and dumb spiritually speaking, you have to fill with light your physical and spiritual senses, restructure your physical body, which is the temple that you have to lift and adjust for the arrival of the Christ in you, so you can through the Holy Spirit forge the spiritual dresses and walk with me in both the physical and spiritual worlds.

You've been in ignorance or darkness for long, when you get the wisdom or light, that's your enlightening Christ, which is the true image of GOD Father, is as the light that comes on in a dark room that initially bothers but you'll end up accepting and adapting without obfuscating you, rather searching it to guide your decisions in life.

MOTHER:

Now you understand that the first death is a law that helps mortals to not do the same mistakes forever, and you cannot pay for the same crime twice and you can start over if you are already too old and your body is unusable. Or you must be born twice? Or would you rather die twice?

The prophet has already chosen, but YOU still don't enter the path of God, believing that you died for sin in an illusory form (repressed not dead). Another group just waits idle, live his life and let death come by inertia.

#### FATHER:

Do not think of reject and not accept what I say because you believe that your way is the truth, I must tell you that all roads (religions) eventually lead you here, to this COSMIC WISDOM, ignore it or be indifferent it will be like orphans who want to meet their parents.

There are two paths before you: Use the creative energy for spiritual purposes or take the creative energy and waste it on the tempting passion. Or do you prefer being single (unmarried) thinking that it will alleviate your responsibility.

#### MOTHER:

In thee this decision and choice

If you choose the higher and spiritual sexuality, enjoy it, raises the cup and drink to the last drop. But you must close your psyche and mind to desire, possess worldly goods and materialism.

Or pick what common people already elected, which is give yourself to the beast of lust, orgasmic pleasure and materialistic world.

There are roads and roads, stages and phases, but do not let the temptation end your life source.

FATHER:

It is time to report to the Universal Law; get up spiritually or fall into the purification of the end of times. In your mind you think there will be pity and compassion for you, do not! because in this dimension (superior or celestial) we are beyond good and evil, beyond the cries, tears, joys and sorrows of humanity, beyond the excuses you shall have for not evolving and incarnated the Christ within. These earthly feelings correspond and need to be transcended so that you can evolve. Behold the sun rising every day and enlightens everyone, I'm like the sun that lights you since antiquity, but many have chosen to hide in the darkness (ignorance) and not receive my blessing.

MOTHER:

It comes to your mind have children to populate the earth, all you accomplish is to feed death, leading the mechanical life of birth-growth-having children and die without having accomplished really nothing spiritually,

as this function of having children can be made by any living being, then you will die and you will be just a memory and beyond not even that. Remember that the matter dies and the spiritual is eternal.

FATHER:

You choose your spouse envisioning conquer materialism? or your spiritual evolution. If you choose the spiritual path by my side, renounce the material world and get ready for transforming vices into virtues, this is the mystical death.

You'll have to go through trials all mystical being passed to measure their spiritual value and its character.

MOTHER:

Today I give my gifts, to who has overcome his own ego on the cross, which resisted all attacks and vapors of the seven elements of nature. Love that is given only to those that transcended when meeting defeat, betrayal, bitterness, scorn, pain, illness, ridicule, persecution, abuse, slander and defamation. To those who have raised the spirit and have been recognized by the dimensional cosmos, which have persisted with his strength, suffering solitude or sun age, the virtuous spirit (man or woman in Christ) amid a world of vicious animalistic habits (egocentric Male-female).

## FATHER:

To me comes only after receiving phases whose reaction often are slander and defamation, which are the ordeal of the air , blows and persecutions that lead to displeasure, which is the ordeal of the earth, sensual vices and temptation, thirst for power, they are the ordeal of the water, and having mastered uncontrolled ambitions, which are the ordeals of fire.

## MOTHER:

Ordeals of these 4 elements are the cross where was nailed one that came to me, **Jesus Christ**. However, others with equal or greater hierarchy have lived and live this in secret; few know of its existence because it suits their honors. Do not think that in the world there are only "born once" (physical birth) and "twice-born" (born spiritually.) Also exist, add the "one and a half born" and the "aborted". Beware of being part of the last two, convinced by their Machiavellian language (egocentric), since they do not live in this world or the other, are lukewarm; are those who really are not initiated or profane, the imitators of the Masters, the semi-wise, planters of dirty hand, have not discerned among the weeds, the followers of the dead word and deviants, who covet me and boast of my love, when they are not even worthy of this message.

FATHER:

Some use some flashy clothes, necklaces, objects named as magical or ritual elements, some proclaims are the "sole owners of the truth", believing to have its monopoly; those even boast of this teaching, but they are only dimensional beggars (materialistic) imploring a crumb of wisdom regardless of their origin.

MOTHER:

You aren't going to be a "twice born" standing on the head or meditating, these are ways to move energy, or in the coffin ceremonies, which are purely symbolic of the mystical death, they are part of the grand art of nature. Nor going to be twice born by the grace of the Holy Spirit as this only comes to you when with the waters of life is sublimated. If you want the second birth you must be an ALCHEMIST. If you invoke me in full sacred action (SEXUAL TANTRA), receive my blessing and go your way.

FATHER:

You are destined to be an active part of the universe. Not all human conceived will be "Christ Men-Women"; some with human body are like minerals or pre-resonant metals in stagnant living. Others are like plants only struck by the wind with spiny or poison crucial bodies, others are like animals (wolves) and other will reach a better state like between plant and tame animal (sheep). Before the universe the only

thing that matters is your spirit and virtues that possesses, all other goes to the grave.

## MOTHER

If you are looking to God for curiosity, reflect it several times: If you do not have the required value, back up, shelter in your vanity and your pride. Wander physically, look down, and raise your eyes as your peers. If you are not balanced, do not aspire to know this divine face. Sad is that animal possessed by greed or insane curiosity, contemplate even my reflection, because It will not ever forget and die tormented by the longing to possess me.

If you have already purified and you have prepared, if you have eyes to see and ears to hear, if your intention is noble and pure, continue relentlessly and know that from the moment you cross the door of the occult dwelling, I will wait anxiously, as the teenage girlfriend with his first love. Search and you will find; don't do prayers and expect things come to you, fight for me. You will conquer me by the **STRENGTH AND WILL OF YOUR DECISION** not just by praying.

## **PRAYER TO THE DIVINE MOTHER**

Oh, Mother of the Cosmos, root, stem, bud, leaf, flower and seed of all that exists, living expression of love, you are my refuge and support, help me, guide me, enlighten me, infuse your love into my conscious and keep me steadfast in this path of light, no matter what happens.

My Mother Isis! Mary, I pray for our Lord Christ, it may please thee to hear my prayers and requests.

With You my Mother! I'm the hot radiant light intensified, as a central beacon to enlighten the path of humanity; my crystal waters may not be contaminated.

Beside you I will communicate the purpose of the kingdom of heaven. At your side will conquer the seventh dimension of Light.
